Port Blakely Andrew Price, 1990 *Charting the Emerging Field of Japanese Diaspora Archaeology* Douglas E. Ross, Koji Lau-Ozawa, 2023-04-29 This book examines the Japanese diaspora from the historical archaeology perspective drawing from archaeological data archival research and often oral history and explores current trends in archaeological scholarship while also looking at new methodological and theoretical directions The chapters include research on pre War rural labor camps or villages in the US as well as research on western Canada British Columbia Peru and the Pacific Islands Hawai i and Tinian incorporating work on understudied urban and cemetery sites One of the main themes explored in the book is patterns of cultural persistence and change whether couched in terms of maintenance of tradition Americanization or the formation of dual identities Other themes emerging from these chapters include consumption agency stylistic analysis community lifecycles social networks diaspora and transnationalism gender and sexuality Also included are discussions of trauma racialization displacement labor heritage and community engagement Some are presented as fully formed interpretive frameworks with substantial supporting data while others are works in progress or tentative attempts to push the boundaries of our field into innovative new territory This book is of interest to students and researchers in historical archaeology anthropology sociology of migration diaspora studies and historiography Previously published in *International Journal of Historical Archaeology* Volume 25 issue 3 September 2021 **Company Towns of the Pacific Northwest** Linda

Carlson, 2017-09-01 Company town The words evoke images of rough and tumble loggers and gritty miners of dreary shacks in isolated villages of wages paid in scrip good only at price gouging company stores of paternalistic employers But these stereotypes are outdated especially for those company towns that flourished well into the twentieth century This new edition updates the status of the surviving towns and how they have changed in the fifteen years since the original edition and what new life has been created on the sites of the ones that were razed In the preface Linda Carlson reflects on how wonderful it has been to meet people who lived in these towns or had parents who did and to hear about their memorable experiences

Bainbridge Island Donald R. Tjossem, Bainbridge Island Historical Museum, 2013 Bainbridge Island sits in the middle of Puget Sound in Washington State Its unique history starts with the Native Americans and includes logging farming fishing and shipbuilding from the late 1800s through the present Early explorers included George Vancouver in 1792 and the Wilkes expedition of 1841 Ferry service and other means of water transport were the only ways onto the island until 1950 when a bridge was completed Bainbridge Island is only a 30 minute ferry ride from Seattle and its only bridge approaches the island from the west The City of Bainbridge Island which includes the entire 65 square mile island incorporated on February 28 1991 Its 23 000 residents today share the rich history that is told in images and captions within the pages of this book

Pacific Connections Kornel Chang, 2012-06-12 In the late nineteenth century the borderlands between the United States the British Empire in Canada and the Asia Pacific Rim emerged as a crossroads of the Pacific world In *Pacific Connections*

Kornel Chang tells the dramatic stories of the laborers merchants smugglers and activists who crossed these borders into the twentieth century and the American and British empire builders who countered them by hardening racial and national lines But even as settler societies attempted to control the processes of imperial integration their project fractured under its contradictions Migrant workers and radical activists pursued a transnational politics through the very networks that made empire possible Charting the U S Canadian borderlands from above and below Chang reveals the messiness of imperial formation and the struggles it spawned from multiple locations and through different actors across the Pacific world Pacific Connections is the winner of the Outstanding Book in History award from the Association for Asian American Studies and is a finalist for the John Hope Franklin Book Prize from the American Studies Association

The Birth of Big Business in the United States, 1860-1914 David O. Whitten, Bessie E. Whitten, 2005-11-30 The economic and cultural roots of contemporary American business can be traced directly to developments in the era between the Civil War and World War I The physical expansion of the country combined with development of transportation and communication infrastructures to create a free market of vast proportion and businesses capable of capitalizing on the accompanying economies of scale through higher productivity lower costs and broader distribution The Birth of Big Business in the United States illuminates the conditions that changed the face of American business and the national economy giving rise to such titans as Standard Oil United States Steel American Tobacco and Sears Roebuck as well as institutions such as the United States Post Office During this period commercial banking and law also evolved and as the authors argue business and government were not antagonists but partners in creating mass consumer markets process innovations and regulatory frameworks to support economic growth The Birth of Big Business in the United States is not only an incisive account of modern business development but a fascinating glimpse into a dynamic period of American history

The Lumberman's Frontier Thomas R. Cox, 2010 With *The Lumberman's Frontier* Thomas Cox has reconstructed a groundbreaking history that stands apart from all previous studies of American forests Forests were ubiquitous in early America but it was only in selected areas that trees rather than farming attracted settlement These areas constitute the lumberman's frontier which appeared first in northern New England in the seventeenth century followed by upstate New York the Allegheny Plateau the upper Great Lakes states the Gulf South and the Far West The forest frontiers generated capital and building materials important in the nation's development but they also left a legacy of environmental problems class and urban rural divisions and economic frictions The 1930s marked the end of the lumberman's frontier but these consequences continue to shape attitudes and policies toward forests most notably the questions Whose forests are they and How and by whom should forests be used Drawing upon recent work in social and economic history as well as a wealth of historical data on forest industries and individuals *The Lumberman's Frontier* neither glorifies economic development nor falls into the maw of gloom and doom It puts individual actors at center stage allowing the points of view of the workers and lumbermen to emerge *The Lumberman's Frontier* will

appeal to students and scholars of forestry public policy and environmental history as well as to general readers interested in the history and settlement of the United States

More Voices, New Stories Mary Candice Wright, 2002 Twelve essays explore the history of Seattle and King County Washington with a special focus on social cultural and ethnic history Meet King County s earliest vaudevillians welfare mothers restaurateurs African American coal miners Scandinavian immigrants shapers of Young Men s Buddhist Association and Jewish women founders of Settlement House Here are also the modern Mexican American voters and recent Vietnamese immigrants reflecting in interviews on the forces that impact their Seattle experiences Back cover

Furusato Ronald Magden, 1998 *Preserving Cultural Landscapes in America* Arnold R. Alanen, Robert Melnick, 2000-04-03 Historic preservation efforts began with an emphasis on buildings especially those associated with significant individuals places or events Subsequent efforts were expanded to include vernacular architecture but only in recent decades have preservationists begun shifting focus to the land itself Cultural landscapes such as farms gardens and urban parks are now seen as projects worthy of the preservationist s attention
