Wilcox, Jonathan N. Barron, 2000 In *Roads Not Taken* Earl J. Wilcox and Jonathan N. Barron bring a new freshness and depth to the study of one of America's greatest poets. While some critics discounted Frost as a poet without technical skill, rhetorical complexity, or intellectual depth, over the past decade scholars have begun to view Robert Frost's work from many new perspectives. Critical hermeneutics, cultural studies, feminism, postmodernism, and textual editing all have had their impact on readings of the poet's life and work. This collection of essays is the first to account for the variety of these new perceptions.

Pleasure and Efficacy Grace E. Lavery, 2023-05-30 Finalist for the National Book Critics Circle Award in Criticism. A leading trans scholar and activist explores cultural representations of gender transition in the modern period. In *Pleasure and Efficacy* Grace Lavery investigates gender transition as it has been experienced and represented in the modern period. Considering examples that range from the novels of George Eliot to the psychoanalytic practice of Sigmund Freud to marriage manuals by Marie Stopes, Lavery explores the skepticism found in such works about whether it is truly possible to change one's sex. This ambivalence, she argues, has contributed to both antitrans oppression and the civil rights claims with which trans people have confronted it. Lavery examines what she terms trans pragmatism: the ways that trans people resist medicalization and pathologization to achieve pleasure and freedom. Trans pragmatism, she writes, affirms that transition works; that it is possible and that it happens. With Eliot and Freud as the guiding geniuses of the book, Lavery covers a vast range of modern culture: poetry, prose, criticism, philosophy, fiction, cinema, pop music, pornography, and memes. Since transition takes people out of one genre and deposits them in another, she suggests, it should be no surprise that a cultural history of gender transition will also provide by accident a history of genre transition. Considering the concept of technique and its associations with feminine craftiness as opposed to masculine freedom, Lavery argues that techniques of giving and receiving pleasure are essential to the possibility of trans feminism thriving even as they are suppressed by patriarchal and antitrans feminist philosophies. Contesting claims for the impossibility of transition, she offers a counterhistory of tricks and techniques passed on by women to women that comprises a body of knowledge written in the margins of history. **A Literary History of England Vol. 4** A.
