The content of news has not changed much over the last century politicians celebrities wars crime and sports dominate past and present headlines Yet the ways in which journalists both gather and disseminate information have been turned on their head Gone are the days of editors assigning stories to writers who then research inquire and present what they found in a compelling yet accurate fashion Today's journalists are coding programming running analytics and developing apps These news nerds are industry professionals working in jobs at the intersection of traditional journalism and technologically intensive positions that were once largely separate Consequently news nerds have changed the institutionalized view of journalism which now accounts for these professionals News Nerds explores how technological economic and societal changes are impacting the institutionalized profession of journalism Allie Kosterich draws on a mixed methods research design that blends interviews social network analysis of LinkedIn data job postings and industry publications to make sense of how skills and practices become entrenched throughout the news industry Taken together these data reveal the ways in which the profession is evolving to incorporate new technological skillsets and new routines of production In telling these stories and sharing these findings Kosterich directly confronts what happens when new skillsets and new ways of understanding and producing news start to collide with the old routines of journalism News Nerds introduces the notion of institutional augmentation a process of institutional change that is not restricted to the expected binary outcome of the reinstitutionalization of something new or failure as a fleeting fad Instead as in the case of news nerds and journalism there exists an alternative possibility in the coexistence of supplementary institutions News Nerds provides a timely and relevant analysis of contemporary journalism and a model for understanding how industries react to the emergence of new career trajectories and new categories of employment "One more thing" Charlotte Erdmann, 2011 *Update*, 1982

Dictionary of Acronyms and Technical Abbreviations Jakob Vlietstra, 2012-12-06 My first encounter with acronyms took place when I was ten years old and growing up in an occupied country during the Second World War My father proudly announced one day that despite the ban imposed by the occupying administration he had managed to get a radio installed and could receive the BBC All acronyms used in this introduction are listed in this dictionary To me the meaning of BBC was that we would receive different information about the war than we got from the usual censored broadcasts There was of course the well known acronym associated with the NT but at that time I did not realize that it meant more than the postal service in those years a deteriorated service Gradually the daily use of acronyms grew Most of the newly acquired three and

four letter abbreviations referred to organizations such as the broadcasting corporations in The Netherlands and Belgium and references to countries such as the USA USSR and UK When attending high school the HBS after the war my knowledge of acronyms grew slowly Even during the ten years I spent in the Dutch Merchant Marine the GHV the number of acronyms was limited to advanced equipment that eventually became known as RADAR LORAN and DECCA *Careers for Cyber Surfers & Other Online Types* Marjorie Eberts, Rachel Kelsey, 2003-10-09 Discusses job opportunities such as developing software providing Internet access working as a Webmaster and becoming an Internet entrepreneur **The Marine News**, 1955 **Engineering News-record**, 1924 Radio News, 1946 Some issues 1943 July 1948 include separately paged and numbered section called Radio electronic engineering edition called Radionics edition in 1943 **AMSTAT News** American Statistical Association, 2003 *News from Xinhua News Agency, China* Xin hua tong xun she, 1985 *Electronic America* Laurie DiMauro, 2009 Industrial Equipment News, 1971 **Chemical and Engineering News** Harrison Estell Howe, Walter Joseph Murphy, 1948 *Marketing News*, 2016 *Statistical News*, 1972 Developments in British official statistics *ASM News*, 2005 RTNDA Communicator, 2004
