eSports Yearbook 2015/16 Tobias M. Scholz, Julia Hiltscher, 2017-04-12 This year's issue contains several articles about eSports. This time there are more research articles included. The topics range from research about eSports spectatorship, the informal roles in Counter Strike Teams, a potential reverse gamification effect, the chances of eSports being an Olympic discipline, the connection between League of Legend teams and the owning corporations, the ergonomics in eSports and the health perception of gamers to the potential shift in FPS games. The book is a statement: eSports is not only booming in the business context but increasingly gains attention in research as well.

The Economics of Sports Michael A. Leeds, Peter von Allmen, Victor A. Matheson, 2018-04-27 The sports industry provides a seemingly endless set of examples from every area of microeconomics, giving students the opportunity to study economics in a context that holds their interest. Thoroughly updated to reflect the current sports landscape, *The Economics of Sports* introduces core economic concepts and theories and applies them to American and international sports. Updates for this sixth edition include: More coverage of international sports including European football; A revised chapter on competitive balance reflecting new techniques; A brand new chapter on mega events such as the Olympics and World Cup; New material on umpire bias; A completely redesigned chapter on amateur competition that focuses exclusively on intercollegiate sports. This chapter is also now modular, enabling instructors who wish to intersperse it with the other chapters to do so with greater ease. This accessible text is supported by a companion website which includes resources for students and instructors. It is the perfect text for advanced undergraduate and graduate courses on sports economics.

Sports Finance and Management Jason A. Winfree, Mark S. Rosentraub, Brian M. Mills, 2011-08-29 This definitive text on sports management and finance focuses on how the modern sports team has evolved. Addressing the fact that the 21st Century sports team has turned to a real estate development, media and entertainment corporation, this book focuses on the how and why of the change rather than traditional finance topics such as borrowing money, ticket pricing and player compensation. It includes an assessment of ownership structures and discusses real estate development, facility designs and their fit into urban centers.
