Unrelenting Change, Innovation, and Risk Daniel J. Phelan, 2016-04-08 Arguably the nation's community colleges have experienced more change in the last several years than they have over the prior 115 years of their existence. Rapid changes in technology, external pressures for accountability and student completion, aggressive competition from other higher education institutions, i.e. public for-profit and private, changes in enrollment demographics as well as new economic market and operational models stand to completely disrupt this relatively young enterprise. *Unrelenting Change* provides useful practical examples for community college leaders as they seek to thoughtfully and strategically align their organization for the new dynamic in higher education. Furthermore, *Unrelenting Change* offers insights into the change process including institutional assessment and readiness, consideration of cultural implications, strategic intentions toward innovation as well as risk, failure and success. Rather than perceiving change and disruptive innovation as merely happenstance or luck, the author provides discernment into the topic so as to give community college leaders solid guidance if not improved odds in undertaking this important competitive edge for the future of their intuitions and by extension their students. **Giving**

Voice to Democracy in Music Education Lisa C. DeLorenzo, 2015-10-23 This book examines how music education presents opportunities to shape democratic awareness through political, pedagogical and humanistic perspectives. Focusing on democracy as a vital dimension in teaching music, the essays in this volume have particular relevance to teaching music as democratic practice in both public schooling and in teacher education. Although music educators have much to learn from others in the educational field, the actual teaching of music involves social and political dimensions unique to the arts. In addition, teaching music as democratic practice demands a pedagogical foundation not often examined in the general teacher education community. Essays include the teaching of the arts as a critical response to democratic participation, exploring democracy in the music classroom with such issues as safe spaces, sexual orientation, music of the Holocaust, improvisation, race and technology, and music teaching, music teacher education as a form of social justice. Engaging with current scholarship, the book not only probes the philosophical nature of music and democracy but also presents ways of democratizing music curriculum and human interactions within the classroom. This volume offers the collective wisdom of international scholars, teachers and teacher educators and will be essential reading for those who teach music as a vital force for change and social justice in both local and global contexts. **Farm and Home News**, 1968-11 **The Michigan**
