increased China's influence to the point where China is poised to edge out the United States and take the lead. For investors like you, this tectonic shift poses difficult challenges along with tremendous opportunities. In *China's Rise and the New Age of Gold*, one of the 21st Century's top economic experts, Stephen Leeb, lays out his compelling argument that explosive gains in gold lie ahead. Gold's price will increase dramatically to as high as 20,000 an ounce. Investing in gold will be the best and perhaps only way to generate substantial investing profits in this decade and beyond. Leeb draws from his vast knowledge of macro economic trends and current market conditions to explain China's plans to launch a new monetary system centered on gold which will largely supplant the global dollar based monetary system. And he provides you with the tools you need to invest in all things gold including in gold itself, gold mutual funds and ETFs and the right mining companies. The author paints a picture of a fully transformed investing world, one that will make important yet temporary events like the 2008 financial meltdown and coronavirus crash pale in comparison. This prescient guide to 21st Century investing delivers the knowledge and insight you need to draw unprecedented profits as China's rise truly launches a new age of gold.

Foreign Direct Investment in Latin America and the Caribbean 2019 United Nations Publications, 2019-11-25. This ECLAC annual report sets out and analyses the main foreign direct investment (FDI) trends in the countries of Latin America and the Caribbean. In the region, FDI inflows were up by 13.2% year on year for the first time in five years at US\$184.287 billion. This performance is explained by higher flows into just a few countries, however, mainly Brazil and Mexico. Moreover, it does not reflect equity investment but higher inflows in the form of intercompany loans and, to a lesser extent, reinvestment of earnings. Manufactures and services were the sectors receiving most equity, although there was a slight rise in investment in natural resource sectors compared with 2018.
