Meme Wars Kalle Lasn, Adbusters, 2013-01-15 From the editor and magazine that started and named the Occupy Wall Street movement Meme Wars The Creative Destruction of Neoclassical Economics is an articulation of what could be the next steps in rethinking and remaking our world that challenges and debunks many of the assumptions of neoclassical economics and brings to light a more ecological model Meme Wars aims to accelerate the shift into this new paradigm that takes into account psychonomics bionomics and other aspects of our physical and mental environment that are often left out in discussions of economics Like Adbusters the book will be image heavy and full color throughout Lasn calls it a textbook for the future that provides the building blocks in texts and visuals for a new way of looking at and changing our world Through an examination of alternative economies Lasn hopes to spur students to become barefoot economists and to see that a humanization of economics is possible Meme Wars will include contributions from Nobel Prize winner Joseph Stiglitz Paul Samuelson George Akerlof Lourdes Bener a Julie Matthaei Manfred Max Neef David Orrell Paul Gilding Mathis Wackernagel and the father of ecological economics Herman Daly among others Based on ideas that were presented in a special issue of Adbusters entitled Thought Control in Economics Beyond the Growth Paradigm An Activist Toolkit Meme Wars will help move forward the Occupy Wall Street movement *Revue suisse d'économie politique et de statistique*, 1985

Mememonics Said Dawlabani, 2013-09 The term vMEME the superscript v is for value refers to a core value system expressed through a culture's memes i.e. its ideas habits and cultural preferences and practices that spread from person to person In MEMEnomics Said E Dawlabani reframes our economic history and the future of capitalism through the unique prism of a culture's value systems Focusing on the long term effects of economic policies on society he expands psychologist Clare W Graves' concepts of the hierarchical nature of human development and the theories of value systems of Beck and Cowan's Spiral Dynamics He presents our economic history in terms of the hierarchy of five of the eight value systems or vMEMEs of human existence that we can now identify These new value preferences emerge as people interact with their environment to solve the problems of their life conditions *Fixed* John Y. Campbell, Tarun Ramadorai, 2025-10-21 Two leading economists reveal why today's personal finance markets are rigged against us and offer practical steps to fix them We interact with the financial system every day whether taking out or paying off loans making insurance claims or simply depositing money into our bank accounts Fixed exposes how this system has been corrupted to serve the interests of financial services providers and their cleverest customers at the expense of ordinary people John Campbell and Tarun Ramadorai diagnose the ills of today's personal finance markets in the United States and across the globe looking at everything from short term saving and borrowing to loans for education and housing financial products for retirement and insurance They show how the system is fixed to benefit those who are wealthy and more educated while encouraging financial mistakes by those who are not making it difficult for regular consumers to make sound financial decisions and

disadvantaging them in some of the most consequential economic transactions of their lives Campbell and Ramadorai describe how some even opt out of the financial system altogether relying on unregulated and often shady mechanisms to implement necessary financial functions with dire consequences for individuals families and the economy more broadly With the explosive growth of the global middle class longer lifespans and greater numbers of seniors managing their money alone the pitfalls of personal finance now affect billions of people around the world Fixed proposes concrete solutions that harness the expertise of economists the power of government and the speed of technology to restore fairness and trust in our broken system and make it work better for ordinary people **Consumer Prices and Price Indexes** Statistics Canada.
