Popular Culture And High Culture An Analysis And Evaluation Of Taste:

Popular Culture And High Culture Herbert J. Gans, 1974 This book is a sociological study of popular culture and high culture and of their place in American society It is also a critical study defending popular culture against some of its attackers particularly those claiming that only high culture is a culture and that popular culture is a dangerous mass phenomenon I believe both to be cultures and my analysis therefore looks at both with the same conceptual apparatus The apparatus itself is sociological but it rests on two value judgments 1 that popular culture reflects and expresses the aesthetic and other wants of many people thus making it culture and not just commercial menace and 2 that all people have a right to the culture they prefer regardless of whether it is high or popular In its conclusions the book is thus an argument for cultural democracy and an argument against the idea that only the cultural expert knows what is good for people and for society Finally the book is a study in cultural policy for it ends by translating its values and findings into some policy proposals for more cultural pluralism Preface page vii

Feminism and the Politics of Literary Reputation Charlotte Templin, 1995 Soon after its publication in 1973 Fear of Flying brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong's books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary

life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong's reception in a postfeminist age and the trivialization of Jong's works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer Feminism and the Politics of Literary Reputation provides an excellent case study for the literary reception of women writers within a broad cultural context Templin's analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores *Attraktion und Abwehr* Angelika Linke, Jakob Tanner, 2006 Zweifelsohne kann man das 20. Jahrhundert aus heutiger Sicht als ein amerikanisches Jahrhundert bezeichnen In der Zeit des Ersten Weltkriegs kam der zunächst positiv gepragte Begriff der Amerikanisierung auf der jedoch zunehmend benutzt wurde um amerikanische Einflüsse auf die gesellschaftliche Entwicklung in anderen Ländern zu problematisieren Seit den 1950er Jahren durchdringt der American Way of Life auch in Europa alle Bereiche des Lebens Amerika wird zur Metapher die gleichermassen Attraktion wie Abwehr spiegelt während die Amerikanisierung oftmals unzutreffend als positiver Wert oder als Schuldzuweisung verwendet wird Aus der Perspektive verschiedener kulturwissenschaftlicher Disziplinen versuchen die hier versammelten Beiträge allzu einfachen Deutungen dieses ambivalenten Phänomens entgegenzuwirken Anhand vielfältiger Aspekte werden die komplexen Mechanismen von Anregung Austausch und Rückkopplung aufgezeigt die zwischen amerikanischer und europäischer Alltagskultur spielen und Amerika als gigantischen Bildschirm Europas erscheinen lassen Lesestoff für Millionen Jürgen Hübner, 1986 *As Much to Learn as to Teach* Lester Asheim, 1979

New Class Culture Avrom Fleishman, 2002-10-30 A new class is emerging in the wake of the information economy and is altering American culture Instead of arguing about values in aesthetic taste or morality this book sheds new light on the culture wars by examining the social sources of recent cultural developments Both opponents and defenders of the current cultural scene have neglected the class factors in culture generally and in present society If the new class is added to our picture of American society its input into the cultural marketplace helps to explain present trends in postmodernism mixtures of high and low culture and other recent developments Both opponents and defenders of the cultural scene have neglected the class factors in culture generally and in present society Instead of arguing about values in aesthetic taste or morality this book offers a new perspective on the culture wars by inquiring into the social sources of the argument When a new class is seen to have emerged in the wake of the information economy its effects on cultural taste and style will help to explain both their strengths and weaknesses The book's message is that much of the heat generated in the culture wars may be lowered

and clarification obtained by observing a principle in social and aesthetic matters every class has its culture When the social functions of both high and popular cultures are acknowledged it becomes possible to criticize current offerings for their effectiveness or limitations in fulfilling those functions If the new class is added to our picture of American society its input into the cultural marketplace helps to explain present trends in postmodernism mixtures of high and low culture and other recent developments

Advertising and Popular Culture Jib Fowles, 1996-02-21 Is it possible that consumers exploit advertising even more so than advertising exploits and influences our culture Author Jib Fowles argues that consumers look to advertising to provide them with images that can assist them in negotiating the personal dilemmas of advanced industrial life Advertising and Popular Culture is the first comprehensive text to provide a balanced analysis of advertising and its companion the popular culture conveyed through the mass media Reflecting current theories this thoughtful critique uses excerpts from advertising campaigns to illustrate how modern advertising both draws from and contributes to popular culture Fowles traces the role of advertising in our culture from its evolution as part of the culture of mass consumption in the late 19th century the development of advertising agencies and the creation of a consumer culture to an exploration of the major themes of American advertising Advertising and Popular Culture represents a fresh and fully elaborated conceptualization of the services that advertising and popular culture provide This text will be a vital tool in departments and schools of advertising journalism and communication where increasing emphasis is being placed on studying the cultural significance of advertising
