Popular Culture In The Age Of White Flight:

Popular Culture in the Age of White Flight Eric Avila, 2006-04 In *Popular Culture in the Age of White Flight* Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States Avila's work helps us see how and why the postwar suburb produced the political culture of balanced budget conservatism that is now the dominant force in politics how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces George Lipsitz author of *The Possessive Investment in Whiteness* **California and the Making of**

Modern Sport Joel S. Franks, 2025-09-30 This book examines the importance of California a socio cultural economic and political powerhouse in the history of modern sport It argues that California has had a profound influence for better or worse on the way that not only America but also the wider world plays sport and spends money to watch others play The book traces the history of sport in California from the mid nineteenth century to the present and looks at how the state's historical development its climate and its unique racial and ethnic demographics have influenced sport at the elite level and in the wider community It considers the importance of spatial politics and cultural citizenship in the development of Californian sport and tells the story of how franchises such as the 49ers and the Lakers as well as individual athletes such as Jackie Robinson and Billie Jean King have had a profound influence on the way their sports have been consumed across America and in the wider world The book also takes a close look at the impact of mega sporting events in the Californian story providing historical context for the LA 2028 Olympic Games and tracing the full arc of the Californization of modern sports This is fascinating reading for anybody with an interest in sport history American history social and cultural history or the relationship between sport and wider society *South of Pico* Kellie Jones, 2017-03-09 Named a Best Art Book of 2017 by the New York Times and Artforum In *South of Pico* Kellie Jones explores how the artists in Los Angeles's black communities during the 1960s and 1970s created a vibrant productive and engaged activist arts scene in the face of structural racism Emphasizing the importance of African American migration as well as L A's housing and employment politics Jones shows how the work of black Angeleno artists such as Betye Saar Charles White Noah Purifoy and Senga Nengudi spoke to the dislocation of migration L A's urban renewal and restrictions on black mobility Jones characterizes their works as modern migration narratives that look to the past to consider real and imagined futures She also attends to these artists' relationships with gallery and museum culture and the establishment of black owned arts spaces With *South of Pico* Jones expands the understanding of the histories of black arts and creativity in Los Angeles and beyond *Future West* William Henry
