Population Environment And Social Organization Current Issues In Human Ecology:

Sociological Human Ecology Michael Micklin, Harvey M Choldin, 2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field **Continuities**

in Sociological Human Ecology Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell's College of Agriculture and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley's Human Ecology Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell's Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call's very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints Population, Environment, and Social Organization:

Current Issues in Human Ecology Michael Micklin, 1973 The story of the Great Irish Famine through the eyes and memories of the Irish people Tells how they lived why their lives depended on the potato how they dreaded the workhouse and how they feared and defied the landlord who collected the rent and evicted them **Handbook of Population** Dudley L.

Poston, Michael Micklin, 2006-04-26 This comprehensive handbook provides an overview and update of the issues theories processes and applications of the social science of population studies The volume's 30 chapters cover the full range of conceptual empirical disciplinary and applied approaches to the study of demographic phenomena This book is the first effort to assess the entire field since Hauser and Duncan's 1959 classic The Study of Population The chapter authors are among the leading contributors to demographic scholarship over the past four decades They represent a variety of disciplines and theoretical perspectives as well as interests in both basic and applied research **City and Region** Wendelin

Strubelt, Grzegorz Gorzelak, 2008-02-26 This book deals with the development of cities and regions in times of decisive transformation in Europe throughout these past twenty years In the Western parts of Europe cities and regions were

challenged from the outside by globalisation and by technological and demographic change from the inside On top of that the Eastern parts were confronted with deep restructuring processes enforced by the transition from socialist to capitalistic structures By now all European cities and regions are confronted with challenges stemming from a new global competition for jobs population and status Authors from different national backgrounds of Central Europe are analysing and reflecting on these changing structures and processes *Population, Environment, and Social Organization: Current Issues in Human Ecology*, 1982

Ghost Settlement on the Prairie Joseph V. Hickey, 1995 Four miles southeast of the village of Matfield Green in Chase County Kansas the heart of the Flint Hills lies the abandoned settlement of Thurman At the turn of the century Thurman was a prosperous farming and ranching settlement with fifty one households a post office two general stores a blacksmith shop five schools and a church Today only the ruins of Thurman remain Joseph Hickey uses Thurman to explore the settlement form of social organization which along with the village hamlet and small town was a dominant feature of nineteenth and early twentieth century American life He traces Thurman s birth in 1874 its shallow rises and falls and its demise in 1944 Akin to what William Least Heat Moon did for Chase County in PrairyErth Hicky provides a deep map for one post office community and consequently tells us a great deal about America s rural past Describing the shifting relationships between Thurmanites and their Matfield Green neighbors Hickey details how social forces set in motion by the American ideal of individualism and the machinations of capitalist entrepreneurs produced a Darwinian struggle between Thurman stock raisers and Flint Hills cattle barons that ultimately doomed Thurman Central to the story are the concept of ordinary entrepreneurship and the profoundly capitalist attitudes of the farmers who settled Thurman and thousands of other communities dotting the American landscape Hickey s account of Thurman s social organization and disintegration provides a new perspective on what happened when the cattle drives from Texas and the Southwest shifted in the 1880s from the Kansas cowtowns to the Flint Hills Moreover he punctures numerous myths about the Flint Hills including those that cattle dominated because the land is too rocky to farm or that Indians refused to farm because of traditional beliefs Like many other small rural communities Hickey argues Thurman during its seventy year history was actually several different settlements A product of changing social conditions each one resulted from shifting memberships and boundaries that reflected the efforts of local entrepreneurs to use country schools churches and other forms of social capital to gain advantages over their competitors In the end Thurman succumbed to the impact of agribusiness which had the effect of transforming social capital from an asset into a liability Ultimately Hickey shows the settlement s fate echoed the decline of rural community throughout America *A Human Ecological Study of the Determinants of Urban In-migration in China* Peiyun She, 2000
