**Population Matters** A G Champion, 1993-06-28 The purpose of this book is to examine the scale and significance of the local dimensions of these developments and the implications for central government complementing the existing literature which focuses almost entirely on the overall national picture It contains a set of ten original studies which

demonstrate the existence of marked geographical variations in population profiles and trends and highlight the main implications and responses The focus is primarily on those policy areas where there needs to be a local scale mechanism for decision making and implementation such as education labour recruitment housebuilding needs social services and health care

**The Changing Geography of the UK** Hugh Matthews,Vince Gardiner,2002-03-11 First published in 2000 Within the last decade the UK has undergone major shifts in terms of its land economy society polity and environment all of which have had a profound effect on the geographical landscape This fully revised edition of a widely appreciated book presents a full description and interpretation of the changes that have occurred during the 1990s It includes a great deal of new material from a revised team of contributors

Europes Population Ray Hall,Paul White,2005-08-17 First Published in 1995 In the final decade of the twentieth century two common themes of public debate and of academic discussion in the social sciences have concerned futures research and the European scene in the context both of developments in the European Union and of post Cold War changes in other parts of the continent At the 1992 Annual Conference of the Institute of British Geographers the Population Geography Study Group organized a session on the future of population change in Europe bringing together these two major themes in the context of demographic change The aim of Europe s population towards the next century is to contribute to informed discussion of the demographic futures of Europe as a whole The whole range of population geography is covered including considerations of fertility and mortality household and family structures labour force issues population redistribution and international migration The authors were each asked to look to the year 2000 and where possible beyond The approach adopted eschews highly technical projections instead highlighting issues and alternative scenarios within general contexts of societal and economic evolution The authors have been drawn from several European countries and the intended coverage is Europe wide although in certain chapters the paucity of current data from some countries especially in eastern Europe narrows the discussion to the countries of the European Union

**GIS And Health** Anthony Gattrell,M Loytonen,2003-09-02 The potential users of GIS for health related analysis and applications are legion In this edited collection there are extensive examinations of appropriate methodologies for spatial analysis and spatial statistics in analyzing health data Chapters explore the links with GIS and consider some of the assumptions and problems associated with such analyses A range of chapters explore the associations between for example air pollution and ill health and between pesticide exposure and disease risk The book also covers statistical and cartographic methods for analyzing data for small areas and methods for health assessment needs

Population Shift Peter Wesley Newton,Martin Bell,1996 Australia s population is among the most mobile in the world on average Australians move house more than 11 times during their lives The movement of population within Australia is rapidly transforming the pattern of human settlement as people shift location to meet emerging needs and aspirations and

respond to the changing spatial landscape of opportunities and constraints At the same time the face of international migration is changing and new forms of temporary mobility at a variety of spatial scales are gathering pace Together these changes represent challenges both in policy and planning for government and the private sector Population Shift brings together a series of contributions from leading migration researchers on contemporary themes and issues in Australian mobility and places this work in its broader social and economic context *Census Users' Handbook* Stan Openshaw,1995-08-08 *Census Users Handbook* Edited by Stan Openshaw The collection of census data has advanced considerably during the last decade The rapid development of GIS and other analysis systems has greatly facilitated accessing manipulating and using this data The *Census Users Handbook* is the essential reference book for all users of the United Kingdom 1991 census It guides the reader in using manipulating mapping and analysing the data helping to provide and develop a better understanding of how to perform census analysis and reviews some of the state of the art methods Each chapter is written by a leading authority in the field and discusses a specific aspect of the census Features provides a clear and authoritative overview of the 1991 UK census results analyses the census using standard statistical packages methods of mapping and visualising census results includes examples of neurocomputing reviews census applications and the future of the census itself The *Census Users Handbook* is an invaluable resource for researchers government departments commercial resellers marketeers data and commercial organisations using census data or wishing to analyse it It is also an essential resource for students of GIS geography and social sciences Environment & Planning A ,1995 **Ethnicity in the 1991 Census: Social geography and ethnicity in Britain: geographical spread, spatial concentration and internal migration** ,1996 Environment & Planning ,2004 Geography and Migration Vaughan Robinson,1996 *Geography and Migration* includes macrolevel descriptions to examine whether migration takes place in discernible flows and whether there are regularities in migration patterns or in the characteristics origin and behaviour of migrants *City Images and Urban Regeneration* Frank Eckardt,Peter Kreisl,2004 Most of the studies represented here are the result of an international workshop at the Bauhaus University Weimar October 2002 when the European Urban Research Association and the Forschungs und Entwicklungsgesellschaft Hessen GmbH FEH joined the University Page 13 Ethnicity in the 1991 Census: The ethnic minority populations of Great Britain ,1996 Environment and Planning ,1994 *Journal of urban planning and design* Publishes research in the application of formal methods methods models and theories to spatial problems involving the built environment and the spatial structure of cities and regions Includes the application of computers to planning and design in particular the use of shape grammars artificial intelligence and morphological methods to buildings and towns the use of multimedia and GIS in urban and regional planning and the development of ideas concerning the virtual city **Population Issues and Australia's Future** National Population Council (Australia). Population Issues Committee,1991 **People, Jobs and Mobility in the New Europe** Hans H. Blotevogel,Anthony J. Fielding,1997-04-30

This book addresses one of the big issues of the 1990s migration. It covers the whole of Europe not just the EU connecting theoretical debates about the underlying causes of spatial economic and social change with detailed empirical work on people, jobs and economic restructuring in specific countries, regions and cities. This multi-layered topic is addressed through chapters which are conceptual and theoretical in content and through country and region specific case studies. The selected case studies ensure that all the important types of regions described in the recent literature on economic restructuring are taken into account. This book will be an important contribution to a key topic in economic and population geography and regional economics.
