Cultural Backlash and the Rise of Populism Pippa Norris, Ronald Inglehart, 2019-02-14 A new theoretical analysis of the rise of Donald Trump Marine Le Pen Nigel Farage Geert Wilders Silvio Berlusconi and Viktor Orbán *The Promise and Perils of Populism* Carlos de la Torre, 2015-01-13 From the protesters in Cairo's Tahrir Square to the Tea Party in the United States to the campaign to elect indigenous leader Evo Morales in Bolivia modern populist movements command international attention and compel political and social change When citizens demand power to the people they evoke corrupt politicians imperialists or oligarchies that have appropriated power from its legitimate owners These stereotypical narratives belie the vague and often contradictory definitions of the concept of the people and the many motives of those who use populism as a political tool In *The Promise and Perils of Populism* Carlos de la Torre assembles a group of international scholars to explore the ambiguous meanings and profound implications of grassroots movements across the globe These trenchant essays explore how fragile political institutions allow populists to achieve power while strong institutions confine them to the margins of political systems Their comparative case studies illuminate how Latin American African and Thai populists have sought to empower marginalized groups of people while similar groups in Australia Europe and the United States often exclude people whom they consider to possess different cultural values While analyzing insurrections in Latin America advocacy groups in the United States Europe and Australia and populist parties in Asia and Africa the contributors also pose questions and agendas for further research This volume on contemporary populism from a comparative perspective could not be more timely and scholars from a variety of disciplines will find it an invaluable contribution to the literature **Visions**

of Transformation Aaron Augsburger, 2025-04-22 On a wave of revolutionary upheaval in the early twenty first century Evo Morales was swept into state power as Bolivia's first Indigenous president with a mandate to radically transform the country The ensuing period known simply as *el proceso de cambio* the process of change has been a tension filled and contradictory process involving progressive transformations ambiguous continuities and outright revolutionary failures Importantly the contradictions have been just as much ideological as they are material By examining and illuminating the contrasting logics

underlying opposing theories of revolutionary change Visions of Transformation provides an analytical framework through which to understand and interpret the central conflicts and contradictions of Bolivia under Evo Morales and the Movimiento al Socialismo Based on nearly two years of immersive fieldwork Visions of Transformation explores the relation between theoretical production and political practice Through the contrasting perspectives of hegemony and plurinationality the book analyzes three specific conjunctural moments a proposed highway through the TIPNIS a conflict over representation of the highland Indigenous movement organization CONAMAQ and the struggle for Indigenous autonomy to shed light on the primary economic social political and theoretical tensions at the heart of Bolivia's proceso de cambio Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over **Faschistische und neofaschistische Bewegungen** Hans-Ulrich Thamer, Wolfgang Wippermann, 1977 **Conflicts and New Departures in World Society** Volker Bornschier, 2017-10-24 This third volume in the World Society Studies series focuses on a central theme how market mechanisms can correct the world welfare deficit and also resolve the environmental crisis through processes of sustainable development The two editors trace how such objectives have been addressed since the 1960s and describe the parameters of the debate Conflicts and New Departures in World Society contains original research on confluences and fissures in emerging world society in both international and domestic arenas The sixteen contributors offer an unusually wide range of perspectives Topics include peace and war core periphery situations and social and labor conflicts Marek Thee traces the quest for a demilitarized and nuclear free world Johan Kaufmann analyzes the role of the United Nations in the post cold war era Jill Crystal concentrates on the human rights environment in the Arab World H C F Mansilla comments on the destruction of the tropical forests in Bolivia Other contributors include Bruce Russett Christian Suter John Foran Beverly Silver and Georg Kohler Conflicts and New Departures in World Society gives intellectual substance to the still nebulous notion of a world society It does so not by advocacy but by indicating parallel social economic and political conditions that compel new interactions between advanced and developing lands This book will be of interest to sociologists environmentalists and political theorists and scientists
