Army. Corps of Engineers, 1976 **Personnel Economics in Sports** Neil Longley, 2018 This book examines personnel economics within the context of the professional sport industry Sport is an effective industry in which to empirically test theories of personnel economics primarily because the employer employee relationship in sport is much more visible and transparent than in almost any other industry Researchers benefit from having data on a host of variables pertaining to individual employees i e players such as their age race national origin and experience Researchers also have data on each employee s performance on their salary and on who their co workers teammates and managers coaches are The chapters are organized around the core functional areas of personnel economics and cover all aspects of the employment relationship in sport from recruiting and selection to pay and performance to work team design Each chapter contains a thorough literature review that provides the reader with a sense of the breadth and depth of the work being done in the area and with a sense as to how the literature can move forward both in a sport and non sport context The book is suitable for an advanced undergraduate course right through to a PhD level field course in both management and economics Academic researchers in the fields of sports economics personnel economics human resource management strategic management and sport management will also find the book of interest Contributors include D Berri C Deutscher B Frick L H Kahane N Longley J G Maxcy J Prinz R Simmons D Weimar **Sport Management Education** Mike Rayner, Tom Webb, 2022-01-27 This book examines a range of contemporary issues related to the global delivery of sport management education At a time of unprecedented change in Higher Education the book looks closely at how sport management education can and should deliver positive outcomes in sport business and management outside of the university The book brings together sport management academics from around the globe and examines how their practice in education has been shaped by the cultural religious and political context of the national regions in which they work It aims to identify core principles in sport management education and implementation and discusses the key aspects of sport management programmes from curriculum design and pedagogy to issues around unified accreditation and the needs of employers It also focuses in on what sport management education might look like in an increasingly digital post COVID world This is essential reading for all sport management educators and anybody working in sport related professions looking to understand global educational platforms and their implications for policy at local regional national and international level Basketball in Japan Aaron L.

Miller, 2024-08-20 Through a study of basketball in Japan this book aims to help readers better understand the historical formation and contemporary reformation of cultural identity in Japan This reformation includes the process of reconciling the

perceived differences between basketball in Japan and basketball in the West the process of reconciling how perceptions of one's body are shaped in a globally interconnected society the process of reconciling what it means to be a modern man and the process of reconciling what it means to be Japanese in a nation that is increasingly multicultural In other words basketball in Japan matters not only because it has for too long been over simply labelled as a minor sport but also because it is much more than a game Examining the real and symbolic power which sport has on Japanese culture and even in some instances the state this book will be a valuable resource for scholars and students of Japanese culture and society and the sociology of sports
