**Imagery of Hate Online** Matthias J. Becker, Marcus Scheiber, Uffa Jensen, 2025-05-02 This edited volume explores the evolving role of visual and multimodal expressions in spreading hate ideologies within digital communication. In digital spaces hate speech is increasingly conveyed through memes, images and videos blending textual and pictorial elements to perpetuate harmful stereotypes and other exclusionary narratives. While historical perspectives on hate imagery are well documented this collection emphasises the pressing need for contemporary analysis of visual and multimodal communication in digital environments. Featuring contributions from interdisciplinary experts this volume investigates the content structure and dynamics of normalisation of visual hate speech. By examining memes, manipulated images and other visual artifacts it reveals how hateful content gains traction in digital public spheres often blurring traditional boundaries of acceptability. Through rigorous case studies and theoretical insights the anthology provides a comprehensive understanding of how multimodality shapes hate discourse and its societal impact. Grounded in empirical research this collection also addresses the challenges of defining and analysing hate ideologies offering nuanced frameworks for distinguishing legitimate critique from hate based narratives. *Decoding Visual Hate* is an essential resource for scholars, policymakers, teachers and digital communicators seeking to combat the proliferation of visual hate and foster more inclusive online spaces.
