This biography memoir of Czeslaw Milosz is a first hand account of the poet's life and his relationship to the author beginning in the 1960s. Milosz was a Polish American poet, prose writer, translator, and diplomat. Regarded as one of the great poets of the 20th century, he won the 1980 Nobel Prize in Literature. In its citation, the Swedish Academy called Milosz a writer who voices man's exposed condition in a world of severe conflicts. Ecstatic Pessimist expands on Czeslaw Milosz's commitment to unpolitical politics, working for a revolution in culture and above all, poetry as a necessary preparation for a revolution in politics. This is a familiar notion in Poland, which for two centuries was politically divided, but poets preserved and enhanced a lively Polish consciousness. And as the book shows, Milosz took steps over two decades to help reunite Poles in the successful Solidarity movement, whose struggle eventually changed the regime and forced the Soviet armies to withdraw. But the book is designed to encourage a similar development in America. Milosz's ambition for poetry may at first sound exotic, but as the book says, it is in the spirit of what John Adams wrote late in life to Thomas Jefferson: "The American revolution was in the mind of the people and in the union of the colonies, both of which were accomplished before the hostilities commenced." Though the book is also designed for those who already know and love Milosz, it is primarily written for those looking for someone whose genius could similarly inspire Americans of both left and right to unite in restoring the badly broken politics of this country. The book argues that Czeslaw Milosz is that genius, as perhaps the only person who has been praised by intellectual leaders like Chris Hedges on the left and has also spoken at Hillsdale College, the intellectual citadel of the American right.

I Series Stephen Haag, James T. Perry, Amy Phillips, 2002 The I Series Applications textbooks strongly emphasize that students learn and master applications skills by being actively engaged by doing. These texts have been written with clear, error-free and unambiguous steps to accomplish tasks that lead to a finished document, worksheet, or database table. The authors made the decision that teaching how to accomplish some task is not enough for complete understanding and mastery. Prior to introducing steps, the authors discuss why the steps students are about to experience are important and what role the steps play in the overall plan for creating a document, workbook, or database.
