billion software company comes an invaluable guide packed with 1 trillion worth of advice from some of the world's most successful and recognizable entrepreneurs. Over the past 20 years, first as an early employee at Salesforce and later as a cofounder of Okta, a publicly traded software company now valued at over 40 billion, Frederic Kerrest has met the most successful entrepreneurs and investors in Silicon Valley and beyond. He's discussed every angle of entrepreneurship with them: what works, what doesn't, and what to do when things get rough, and he's taken notes. The result is this unmatched blueprint for building and growing a business, drawn from his own experience as well as that of his fellow visionaries and business leaders who have collectively built over 1 trillion worth of wealth for themselves and their investors. They include Marc Andreessen and Ben Horowitz, Andreessen Horowitz, Eric Yuan, Zoom, Stewart Butterfield, Slack, Aneel Bhusri, Workday, Julia Hartz, Eventbrite, Aaron Levie, Box, Fred Luddy, ServiceNow, Melanie Perkins, Canva, Patty McCord, Netflix, Sebastian Thrun, Udacity, and dozens of other luminaries. These ideas and practices aren't taught in business schools. They've been learned the hard way through trial and error in the real world of business. Kerrest has battle-tested them himself, so he knows their power. Organized by topic in roughly the order that leaders will encounter them as they scale their businesses, this book is the ultimate guide to taking a company all the way from founding to IPO and beyond. **Wish Monster** J. A.

White, 2024-10-01 From J. A. White, the acclaimed author of *Nightbooks*, comes another spine-chilling stand-alone middle-grade horror novel about a pair of friends who discover a strange creature in a cave that can make any wish come true, including bringing the dead back to life. In the darkness, something opened its eyes. The town of Haywood, New Jersey, has a secret. A wish monster. Violet Park discovered its cave by accident, and the wish monster granted her deepest desire by bringing her dog Midnight back to life. It even erased everyone's memory of his death. Life was perfect. But then an unremarkable boy named Hudson Causeway somehow remembered Midnight had died. That scared Violet. What if he ruined everything? Even worse, what if the wish monster wasn't as innocent as it seemed? Deep down, Violet knew: No wishes are made without consequences, and every monster needs to be fed. Perfect for Halloween reading. Features light scares. A charming cozy seasonal pick.

*The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical* Robert Siegel, 2021-07-27 A Top Financial Times Recommended Business Book. *The Brains and Brawn Company* is the grounded, clear-sighted guide you need to blend digital and traditional business functions for long-term competitive advantage. Business leaders are continually told they need to embrace digital disruption wholeheartedly to thrive in the 21st Century. Legacy companies we hear are all doomed to fail unless they double down on the latest digital innovations, and disruptors are ordained to take over the world. Digital innovation is the answer to everything. False. Nothing in life or business is ever that simple. In *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical*, venture capitalist and Stanford Business School lecturer Robert Siegel brings the digital innovation conversation back down to earth. He shows that while important, digital is only part of the answer, and it's never the only answer. The vast majority of successful

leaders from both incumbents and disruptors focus as much on things like logistics manufacturing and distribution as they do on digital innovation. In fact many established companies are successfully countering young upstarts in other creative ways and many new organizations are learning from their older brethren. Siegel shows how to create lasting profits and growth in the smartest way possible by creating a solid partnership between digital innovation and traditional business operations in other words by marrying brains and brawn. He lays out the core competencies that today's industry leaders have mastered and explains how Charles Schwab uses cutting edge analytics to better serve millions of investors without violating its original code of values. Align Technology transformed orthodontia by developing creative new business models along with new products. Kaiser Permanente taps into the power of empathy to improve patient satisfaction while controlling costs. Instacart balances ownership and partnerships to balance the needs of four key constituencies. Target, Best Buy and Home Depot found different ways to blend the best aspects of physical retail with innovative e-commerce. Desktop Metal is innovating high volume yet affordable production methods that can revolutionize manufacturing. Filled with original research and case studies of Daimler, 23andMe, Instacart, AB InBev, Google and many other companies, *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical* provides practical, proven insights and advice for bridging the gulf between digital vs physical, disruptor vs incumbent, startup world vs Fortune 500 and tech culture vs industrial culture. *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical* provides everything you need to set your company apart from your competitors in real and measurable ways and take the lead in your industry for years to come.
