Memes Today This Month Promo:

Digital Virtues and Memes Alistair Davidson, 2014-11-04 Digital Virtues and Memes focuses upon the consequences of being involved with the Internet in many ways Increasingly marketers are using the Internet to test and craft creative ways of extracting money from your pocketbook Companies are building profiles of you and your activities And cybercriminals are breaking into companies and finding out too much about you Yet the Internet and mobile devices like smart phones are increasingly useful This is the first book to address best practices in defending yourself on the Internet avoiding spending too much money and regaining control of your life

Innovative Design for Societal Needs Sougata Karmakar, Pratul Chandra Kalita, Urmi R. Salve, Sharmistha Banerjee, 2023-12-15 This book presents select proceedings of North East Research Conclave NERC 2022 on innovative design for societal needs Human Society and culture are a continuously evolving complex and intelligent system The social needs of humans today are exacerbated by extremely unbalanced regional economic development and cultural identity crises across the globe and within states This edited book presents cutting edge research on how design innovation can be used to bring sustainable and meaningful social change It also provides novel directions for future researchers interested in exploring the impact of design innovation and design thinking on human society The book can be a valuable reference for beginners researchers and professionals interested in innovative design and allied fields

Virus of the Mind Richard Brodie, 2009-05-15 Virus of the Mind is the first popular book devoted to the science of memetics a controversial new field that transcends psychology biology anthropology and cognitive science Memetics is the science of memes the invisible but very real DNA of human society In Virus of the Mind Richard Brodie carefully builds on the work of scientists Richard Dawkins Douglas Hofstadter Daniel Dennett and others who have become fascinated with memes and their potential impact on our lives But Richard goes beyond science and dives into the meat of the issue is the emergence of this new science going to have an impact on our lives like the emergence of atomic physics did in the Cold War He would say the impact will be at least as great While atomic bombs affect everybody's life viruses of the mind touch lives in a more personal and more pernicious way Mind viruses have already infected governments educational systems and inner cities leading to some of the most pervasive and troublesome problems of society today youth gangs the welfare cycle the deterioration of the public schools and ever growing government bureaucracy Viruses of the mind are not a future worry they are here with us now and are evolving to become better and better at their job of infecting us The recent explosion of mass media and the information superhighway has made the earth a prime breeding ground for viruses of the mind Will there be a mental plague Will only some of us survive with our free will intact Richard Brodie weaves together science ethics and current events as he raises these and other very disturbing questions about memes
