**Nutrition Decisions** Carolyn Dunn (PhD.),2013 Nutrition Decisions Eat Smart Move More encourages personal health behavior change for a lifetime of good habits and good health among students The text employs the Theory of Planned Behavior to empower students to make positive changes in their lives to improve their health The most current research based information on each concept is presented as well as specific strategies that can be employed for behavior change Information is presented in modules that include one specific topic of instruction within the field of nutrition physical activity or other aspect of health and wellness The material is research based and well referenced but is presented in an applied and consumer oriented method that makes

it easy for a non science major to understand Students are encouraged to check their own behavior based on the module content Instructors will be given instructions on how to track a specific behavior for example record beverage consumption over 3 days Suggestions will be given as to how students can make specific positive changes Students will record their goal and how they intend to improve their overall health on their personal record sheet which will be presented in the text as well as on the companion website All chapters will include suggestions about how students can make incremental changes in their health behaviors There will also be a myth versus fact section that will discuss the most common myths about foods and nutrition

*Counseling the Nursing Mother* Judith Lauwers, Anna Swisher, 2005 Counseling the Nursing Mother thoroughly covers counseling techniques and how style and approach can enhance interactions with mothers and thus the effectiveness in helping them breastfeed By presenting topics within a counseling framework and including practical suggestions for working with mothers the reader will gain insights into applying knowledge and research into everyday practice as well as understand counseling challenges and how to meet them

*Eat Well, Age Better* Aileen Burford-Mason, 2013-12-18 Eat Well Age Better shows how you can recognize your nutritional shortfalls deficits that will increase your risk of the degenerative diseases of age including diabetes osteoporosis dementia macular degeneration heart disease and stroke Backed by the latest research Eat Well Age Better describes in straightforward language how to be your own nutritionist By taking control of your diet now and understanding how to optimize it with selected vitamins and other supplements you can increase energy strengthen your immune system maintain a healthy brain and embark upon your retirement years with vigour and vitality
