and private capital flows are highly concentrated geographically with almost half of them reaching the top five destinations. These flows tend to evade many high risk countries with the exception of those directed to extractive industries. Regulatory and contractual risks particularly in infrastructure have inhibited investments in many parts of the developing world. A core objective of the World Bank Group (WBG) has been to support the flow of private investment for development. Guarantees and insurance have been among the instruments that the Group has used to promote private investment.
