Schlesinger, Lila Namir, 2014-05-10 Sign Language of the Deaf Psychological Linguistic and Sociological Perspectives provides information pertinent to the psychological educational social and linguistic aspects of sign language This book presents the development in the study of sign language Organized into four parts encompassing 10 chapters this book begins with an overview of the fascinating account of sign language acquisition by small children This text then explores the grammar of sign language and discusses the linguistic status of natural and contrived sign languages Other chapters consider the many peculiarities of the lexicon and grammar of sign language and its differences in such respects from oral language This book discusses as well sign language from the angle of psycholinguistics The final chapter deals with the educational implications of the use of sign

language This book is a valuable resource for linguists and psycholinguists Readers who are interested in sign language will also find this book useful *Modelling Language Behaviour* R. Narasimhan, 2013-03-12 This book studies language behaviour in the larger context of modelling organismic behaviour more generally It starts out from the basic premise that what is characteristic of organismic behaviour is that an organism uses its behavioural acts to accomplish something in its interactions with the world in which it finds itself These two features that an organism has a behavioural repertoire and that it deploys specific behavioural acts from its repertoire in an intentional way define the agentive nature of an organism The study of organismic behaviour then must primarily concern itself with this agentive aspect of an organism and determine what structures and processes underlie these intentional organismic acts We should be able to say what primitive structures and what primitive processes put together in what ways can give rise to the kinds of behavioural acts an organism engages in Any explanation of behaviour that we formulate in terms of underlying structures and processes must be testable and must be consonant with the observed phenomenological aspects of such behaviour Linguistics and Language Behavior Abstracts, 2008 **Signs, Language and Behaviour** Charles William Morris, 1955 *Behavioral and Social Science* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Basic Research in the Behavioral and Social Sciences, 1986-02-01 In 1933 President Herbert Hoover commissioned the Ogburn Report a comprehensive study of social trends in the United States Fifty years later a symposium of noted social and behavioral scientists marked the report's anniversary with a book of their own from the Commission on Behavioral and Social Sciences and Education The 10 chapters presented here relate the developments detailed in the Ogburn Report to modern social trends This book discusses recent major strides in the social and behavioral sciences including sociology psychology anthropology economics and linguistics **Hominisation and behavior** Gottfried Kurth, Irenäus Eibl-Eibesfeldt, 1975 **Sign Language Structure** William C.
