Safety Net Programs And Poverty Reduction Lessons From Cross Country Experience:

Safety Net Programs and Poverty Reduction K. Subbarao, 1997 The need for social safety nets has become a key component of poverty reduction strategies Over the past three decades several developing countries have launched a variety of programs including cash transfers subsidies in kind public works and income generation programs However there is little guidance on appropriate program design and few studies have synthesized the lessons from widely differing country experiences This report fills that gap It reviews the conceptual issues in the choice of programs synthesizes cross country experience and analyzes how country and region specific constraints can explain why different approaches are successful in different countries *Case Studies in Food Policy for Developing Countries* Per Pinstrup-Andersen, Fuzhi Cheng, 2018-07-05 The food problems now facing the world scarcity and starvation contamination and illness overabundance and obesity are both diverse and complex What are their causes How severe are they Why do they persist What are the solutions In three volumes that serve as valuable teaching tools and have been designed to complement the textbook *Food Policy for Developing Countries* by Per Pinstrup Andersen and Derrill D Watson II they call upon the wisdom of disciplines including economics nutrition sociology anthropology environmental science medicine and geography to create a holistic picture of the state of the world's food systems today Volume II of the *Case Studies* addresses the issues of domestic policies for markets production and the environment **Social Protection for Equity and Growth** Inter-American Development Bank, 2000 These groups often live near the subsistence level and lack the economic or political power to push for policies that can respond to their needs during times of crisis **BOOK JACKET** *The Cambridge Companion to Business and Human Rights Law* Ilias Bantekas, Michael Ashley Stein, 2021-09-09 An innovative textbook setting out a systematic approach to business and human rights **World Poverty** Townsend, Peter, Gordon, David, 2002-09-25 Includes statistics **Social Protection in Asia** Sarah Cook, Naila Kabeer, Gary Suwannarat, 2003 The Book Presents An Overview Of Issues Related To Social Protection In Asia And Argues That The Provision Of Social Protection Should Be Seen As A Core Issue Of Development That Needs Urgent Action By Governments Society And The Organizations And Advocacy Groups Of The Poor **Social Protection Sector Strategy**, 2001-01-01 This book presents recent World Bank analytical work on the causes of violence and conflict in Columbia and the pilot lending programmes which have been designed to promote peace and help development It is divided into three sections The first sets the framework for the history of violence and the mechanisms of its propagation looks at its costs and also at current policy initiatives to reduce it The second part looks at the social economic causes of conflict and the costs of achieving peace The last part reviews the recent experience of the World Bank in assisting countries that are experiencing or have overcome domestic armed conflict **Namibia's Social Safety Net** K. Subbarao, 1998 **Fighting Poverty** Rizwanul Islam, 2006 While it has become abundantly clear that neither overall economic growth nor targeted microlevel interventions inevitably reduce poverty in developing countries much of the development literature continues to

focus on these two approaches Exploring a third and more promising avenue Fighting Poverty offers a systematic analysis of the link between employment and pro poor economic growth The authors provide both conceptual frameworks and rich empirical evidence to demonstrate precisely how employment can serve to link growth with poverty reduction They include in depth case studies of Bangladesh Bolivia Ethiopia India Indonesia Uganda and Vietnam Rizwanul Islam is director of the Employment Strategy Department of the International Labour Organization Contents Introduction R Islam Exploring the Employment Nexus The Analytics of Pro Poor Growth S R Osmani The Nexus of Economic Growth Employment and Poverty Reduction An Empirical Analysis R Islam Employment Policies for Poverty Reduction A Rahman Bangladesh Linkages Between Economic Growth Employment and Poverty R I Rahman and M N Islam Bolivia Employment Poverty Linkages and Policies L C Jemio and M del Carmen Choque Ethiopia Growth Employment Poverty and Policies M Demeke F Guta and T Ferede India Employment Poverty Linkages and Policy Options K Sundaram and S D Tendulkar Indonesia Poverty Employment and Wages I Islam Uganda Economic Growth Employment Poverty and Pro Poor Policies K I B Kabanankye A E K Kabanankye J Krishnamurty and D Owomugasho Vietnam Employment Poverty Linkages and Policies for Pro Poor Growth Pham Lan Huong Bui Quang Tuan and Dinh Hien Minh Conclusion R Islam

Public Finance for Poverty Reduction

Blanca Moreno-Dodson, Quentin Wodon, 2008 The book public finance for poverty reduction includes a series of papers that were prepared in the context of a World Bank Institute WBI public finance The book public finance for poverty reduction includes a series of papers that were prepared in the context of a WBI public finance learning program intended to build capacity in developing countries with a special focus on Latin America and Sub Saharan Africa The book places a particular emphasis on the fiscal issues encountered by countries that are in the process of implementing a poverty reduction strategy It provides an innovative analysis of many difficult policy issues plaguing less developed economies in growing their economies while achieving poverty reduction It also is appropriately concerned with administrative practice and it provides excellent case studies on some new approaches to improving fiscal spending and tax policies in less developed economies The first chapters in public finance are appropriately theoretical in reviewing basic concepts such as fiscal sustainability revenue design accountability measures and tax and benefit analysis Without focusing too much on the concepts alone the chapters provide good discussions of practical solutions to some of the difficulties faced by governments in reaching their objectives The chapters in part two evaluate approaches to policies to stabilize the economy reduce poverty or implement better spending programs in Paraguay Mexico Peru and Uruguay Part three focuses on the poorest continent Africa with case studies of Guinea Rwanda Senegal Niger and Cape Verde The most useful aspect of these case studies is that they provide helpful ideas for implementing policies rather than just focusing on the problems The best part of this book therefore is that it offers hope to governments that it is possible to successfully implement public policies focused on fiscal stabilization economic growth and poverty reduction
