**Festival and Event Management in Nordic Countries** Tommy D. Andersson, Donald Getz, Reidar Johan Mykletun, 2014-06-11 This book on events related research marks a watershed in the development of a Nordic School of festival and event research Each of the chapters presents a new and interesting approach to the study of events in terms of methods perspectives or content It is mostly rooted in management theory but also incorporating other perspectives that enhance our understanding of the phenomena Implications for real world applications in tourism hospitality and community development are also at the fore The scholarship is comprehensive not focused on only tourism or economic aspects Management theory including stakeholder management social networks and institutionalization processes is being applied
