Monitoring and evaluation for effective management of zoonotic diseases FAO; WHO; WOA,2024-12-18

Zoonotic diseases pose significant risks to both animal and human health impacting livelihoods economies and national and global food and health security In response FAO WHO and WOAH convened over 100 international experts to develop the 2019 Tripartite Zoonoses Guide TZG which offers standardized guidance and best practices for addressing zoonotic diseases globally To further assist countries with their operational approaches a suite of operational tools based on the TZG s technical principles is currently under development Many countries have expressed interest in developing monitoring and evaluation M E plans for One Health zoonotic disease systems but often face limitations in expertise and resources The Monitoring and Evaluation Operational Tool M E OT addresses this gap by providing comprehensive guidance on creating an M E framework It offers methods for conceptualizing best practices from the TZG and resources to help countries design and implement M E activities using the principles outlined in the TZG and its operational tools This document serves as a step by step guide for utilizing the M E OT in a stepwise approach enabling countries to establish a robust monitoring and evaluation framework for zoonotic diseases This framework will support existing and new monitoring and evaluation processes for zoonotic disease strategies and plans all within the One Health approach

Monitoring and evaluation for effective management of zoonotic diseases World Health Organization,Food and Agriculture Organization of the United Nations,World Organisation for Animal Health,2025-02-13 Establishing and strengthening monitoring and evaluation of zoonotic disease related activities and programs using the One Health approach Implementing a multisectoral One Health approach for monitoring and evaluation M E generates evidence for countries to inform more effective decision making and future planning to address health threats at the human animal environment interface Collaborative and coordinated M E processes are essential for the systematic collection analysis and use of information and data across sectors This approach ensures that strategies plans and programs are not only effectively implemented but also continue to evolve and improve The Monitoring and evaluation for effective management of zoonotic diseases Operational Tool of the Tripartite Zoonoses Guide M E OT focuses on assisting countries in establishing and strengthening such processes to address multisectoral zoonotic disease related activities and programs

Predictive Modelling for Football Analytics Leonardo Egidi,Dimitris Karlis,Ioannis Ntzoufras,2025-11-07 Predictive Modelling for Football Analytics discusses the most well known models and the main computational tools for the football analytics domain It further introduces the footBayes R package that accompanies the reader through all the examples proposed in the book It aims to be both a practical guide and a theoretical foundation for students data scientists sports analysts and football professionals who wish to understand and apply predictive modelling in a football context Key Features Discusses various modelling strategies and predictive tools related to football analytics Introduces algorithms and computational tools to check the models make predictions and visualize the final results Showcases some guided examples through the use of the footBayes R package available on CRAN Walks the reader through the full pipeline from data collection and preprocessing through exploratory analysis and feature engineering to advanced modelling techniques and evaluation Bridges the gap between raw football data and actionable insights This text is primarily for senior undergraduates graduate students and academic researchers in the fields of mathematics statistics and computer science willing to learn about the football analytics domain Although technical in nature the book is designed to be accessible to readers with a background in statistics programming or a strong interest in sports analytics It is well suited for use in academic courses on sports analytics data science projects or professional development within football clubs agencies and media organizations

ECGBL 2017 11th European Conference on Game-Based Learning ,2017-10-05 International Online Marketing Communication Strategies of Global Players. A Linguistic Study with Special Reference to T-Mobile

Christina Kuttnig,2015-10-29 Diploma Thesis from the year 2002 in the subject English Language and Literature Studies Linguistics grade Sehr Gut Klagenfurt University language English abstract The purpose of this study is to analyse the international online marketing communication strategies of a mobile communications provider that has recently gone global from a linguistic point of view This field of business has so far operated on a local level through the merger of various companies operating on a national level to form the global player T Mobile this has become an international business The present study will compare the linguistic implementation of T Mobile s online marketing communication strategies on the corporate as well as two local Internet sites and attempt to filter out possible cross cultural differences Since an analysis of all relevant media would deserve more consideration than the purpose and length of this thesis allow I wish to focus on just

one media the Internet as this communication channel is exemplar of the open strategy approach of international marketing communications

Women, Soccer and Transnational Migration Sine Agergaard, Nina Tiesler, 2014-08-21 Estimated participation figures of almost 30 million worldwide make soccer the most prominent team sport amongst girls and women. However making a living as a female player is only deemed possible in approximately 20 out of around 150 FIFA listed women's soccer countries. This has led to a situation where highly skilled sports women have to migrate from their homelands to find employment with a professional team. *Women Soccer and Transnational Migration* represents a substantial contribution to our knowledge on the development of women's soccer to research into sports labor migration and sport and globalization more broadly. The book consists of three parts. Firstly it provides an overview and an analysis of migration in women's soccer from its earliest forms until now. It then presents several case studies delivered by scholars from around the world illustrating how female players are increasingly being drawn to the USA, Northern Europe and Scandinavia due to their ability to support professional leagues. Finally all the themes and patterns of these case studies are drawn together to be able to compare and contrast migration in women's soccer to sport migration and globalization more broadly. This study not only makes recommendations for future researchers but may also serve as an important source of information for those in charge of policy. As such it is essential reading for students, lecturers, researchers and practitioners involved in sports migration and women's sport.
