Foreign Market Entry and Cross-Cultural Business* Simon Glandien, 2020-11-18 Academic Paper from the year 2020 in the subject Business economics Business Management Corporate Governance grade A course Cross Cultural Business language English abstract The purpose of this paper is to analyze and evaluate the market entry of Tesla Inc in Germany In November 2019 Tesla revealed to build a European

production plant on the outskirts of Berlin in Germany The aim of this paper is to give account to the foreign market entry of Tesla Inc in Germany This leads to the following research question that guides this paper What could be business success factors and threats of Tesla s strategy to enter the German automotive industry market Tesla Inc former Tesla Motors Inc is a car manufacturer and sells fully electric vehicles energy storage systems as well as installs operates and maintains solar and energy storage products Reuters n d The company was founded in 2003 by a group of engineers In 2008 Tesla launched their first electric vehicle to the market Tesla n d Tesla s mission is to accelerate the world s transition to sustainable energy so the car manufacturer So far most of the Tesla vehicles are produced and assembled in the United States at its main Tesla Factory in Fremont California To that Tesla operates other multiple production and assembly plants named Gigafactory such as in Fremont California Giga Nevada and in Buffalo New York Giga New York Recently in 2019 Tesla opened its first Gigafactory outside the American region in Shanghai China Giga Shanghai A strategic step to internationalize the company and to enter the Chinese market This strategic action can be explained by the fact that China is the largest car market in the world and the government is speeding up the expansion of electric mobility Furthermore manufacturing in Shanghai saves Tesla from having to transport its vehicles overseas and avoids import duties incurred in China for cars from the United States However the company is not just expanding its manufacturing into China *Foreign Direct Investment in Latin America and the Caribbean 2018* United Nations,2019-01-30 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In 2017 certain trends that had already emerged in the global economic landscape became more established In particular announcements of potential restrictions on trade and pressures to relocate production to developed countries were confirmed At the same time China has taken steps to restrict outflows of foreign direct investment FDI in order to align these flows with its strategic plan Adding to these factors is the expansion of digital technologies whose international expansion requires smaller investments in tangible assets Firms in these areas are heavily concentrated in the United States and China which reduces the need for cross border mergers and acquisitions 2025 TESLA MODEL Y JUNIPER REVIEW JACKSON.
