Madoff knows In *The Second Estate* she offers an unprecedented look behind the scenes of America's byzantine system of taxation laying bare not only its capacity to consolidate wealth but also the mechanisms by which it has created two fundamentally separate American societies the working Americans who pay and the ultra rich who benefit This is not a story of offshore accounts or secret tax havens In *The Second Estate* Madoff shows that the US system itself has over time been stripped and reconstituted such that it now offers a series of secret paths hidden in plain sight for wealthy people in the know to avoid taxation altogether Through the strategic avoidance of traditional income leveraging of investments and debt and exploitation of rules designed to promote charitable giving America's wealthy do more than just pay less than their share they remove themselves from the tax system entirely Wealth becomes its own sovereign state and the living is surprisingly
