**Tips & Tricks for Apple Devices** Stu Parker, 2018-11-13 300 Tips & Tricks for all of your Apple Devices to save battery life, storage space, and most importantly, your time and sanity. Up to date with iOS 12, OS X Mojave, Watch OS 5. This is the first guide in the 'Stu It Yourself' series by myself, Stu Parker. I've been a Developer for Apple products since the time of iOS 4 and an Apple fan for many years and wanted a way to pass along my knowledge without overwhelming people after helping them face-to-face with their particular device questions. Read the guide front to back or just pick one item at a time to learn from the Table of Contents with easy-to-follow steps and images. Did you know you can move the cursor on your iPhone by doing a hard press (3D Touch) or tapping and holding on the spacebar and then swiping around? Did you know your iPad can run two apps side-by-side with a third in a slide-over panel and a movie or FaceTime call in a Picture-in-Picture window all at the same time? How about that your iPhone can unlock your Watch and your Watch can unlock your Mac? Or that you can start a task on any of your Apple devices and pick up right where you left off on another device? If you knew all of those, then I am very impressed, but I would still be willing to bet that
