Bringing Your Body Back In A Natural State. Fasting to lose weight seems impossible. But it's actually a second nature for the human body. Ever since we were hunter-gatherers, humans have experienced periods of fasting. Simply because in ancient civilization, food was not always widely available. Society has changed now; we live in a world of abundance. Our body still hasn't adapted to this fact, making fasting a great opportunity to revert back to our ancient eating pattern. The different methods of intermittent fasting are a life-changing opportunity. The best part? It's not even a diet.
