Four Battlegrounds Paul Scharre,2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies

to show the chilling synergy between China's government private sector and surveillance state. He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent. Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology. Engaging and direct. *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare, global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order. *The Economics of the Popular Music Industry* Christie Byun, 2024-04-29 This book uses economic theory to explain how consumers and producers have responded to major changes in the music industry. Byun examines the important role of technology in changing its structure particularly as new methods of creating and accessing music prove to be a double edged sword for creators and producers. This second edition includes new information about concert attendance and live performance in the COVID era and what followed as well as the resultant economic impacts on the industry. Throughout the book Byun questions how the business of music affects creativity and the extent to which this impacts the creative output of the individual artist. Chapters also address copyright enforcement and online piracy. This is an approachable resource for economists interested in the music industry as well as business and music majors studying the ways in which technology can impact a creative process. **Crushing** Genevieve Novak, 2023-04-01 When do you stop starting over? The sparkling new novel from the author of *No Hard Feelings*. Getting over someone is not that difficult. All you have to do is focus on every negative thing about them for the rest of your life until you forget to stop actively hoping for their slow and painful death, then get a haircut. Serial monogamist Marnie is running late to her own identity crisis. After a decade of twisting herself into different versions of the ideal girlfriend, she's swearing off relationships for good. Forever Done. No more no thank you. Pretty inconvenient time to meet Isaac, certified dreamboat and the only man who has ever truly got her. It's cool though, they're just friends; he's got someone else and she has more important things to worry about. Like who she is, what she wants and what the hell she ever saw in the love's of her life in the first place. Flanked by overwhelmed new mum Nicola, terminally single Claud and eternal pessimist Kit, Marnie reckons with the question: who are we when we're on our own? *Crushing* stings with truth and aches with hope. I loved it. Jessica Dettmann. A sharp, funny and biting exploration of a classic millennial existential crisis with some genuine laugh-out-loud moments. Books Publishing. A sexy, complex, bittersweet, dark chocolate soufflé of a book, airily paced, tartly funny and with a romantic centre that's just gooey enough. Clare Fletcher. Bingeable, sharply written and hilarious. *Crushing* had me hooked from the first page. This book is filled with love, rage and wisdom and reading it felt like having a wine with a best friend. Victoria Brookman, author of *Burnt Out*. Praise for *No Hard Feelings*. Funny, biting, vulnerable and unflinching. Novak's novel is like an ocean dip, a bit salty, very refreshing. Lauren Sams. *No Hard Feelings* is clever, funny and surprisingly sweet and Penny captured my heart. Toni Jordan. Wry and witty. *Saturday Age*. Microbiology Eugene W. Nester, 2000 The American
