**Four Battlegrounds** Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

Transition Point: From Steam to the Singularity Sean A. Culey, 2018-12-07 A tale of technological revolutions human evolution and the potential for a utopian or dystopian future The impact of the next wave on business the economy society and the future of humanity A unique book of three intertwined parts that bring together history economics business theory social commentary disruptive technology and futurism

Supremacy Parmy Olson, 2024-09-10 WINNER OF THE THE FINANCIAL TIMES AND SCHRODERS 2024 BUSINESS BOOK OF THE YEAR AWARD In November of 2022 a webpage was posted online with a simple text box It was an AI chatbot called ChatGPT and was unlike any app people had used before It was more human than a customer service agent more convenient than a Google search Behind the scenes battles for control and prestige between the world's two leading AI firms OpenAI and DeepMind who now steers Google's AI efforts has remained elusive until now In *Supremacy* Olson tech writer at Bloomberg tells the astonishing story of

the battle between these two AI firms their struggles to use their tech for good and the hazardous direction they could go as they serve two tech Goliaths whose power is unprecedented in history The story focuses on the continuing rivalry of two key CEOs at the center of it all who cultivated a religion around their mission to build god like super intelligent machines Sam Altman CEO of OpenAI and Demis Hassabis the CEO of DeepMind Supremacy sharply alerts readers to the real threat of artificial intelligence that its top creators are ignoring the profit driven spread of flawed and biased technology into industries education media and more With exclusive access to a network of high ranking sources Parmy Olson uses her 13 years of experience covering technology to bring to light the exploitation of the greatest invention in human history and how it will impact us all      **Fundamentals of Internet of Things for Non-Engineers** Rebecca Lee Hammons, Ronald J.

Kovac, 2019-06-07 The IoT is the next manifestation of the Internet The trend started by connecting computers to computers progressed to connecting people to people and is now moving to connect everything to everything The movement started like a race with a lot of fanfare excitement and cheering We re now into the work phase and we have to figure out how to make the dream come true The IoT will have many faces and involve many fields as it progresses It will involve technology design security legal policy business artificial intelligence design Big Data and forensics about any field that exists now This is the reason for this book There are books in each one of these fields but the focus was always an inch wide and a mile deep There s a need for a book that will introduce the IoT to non engineers and allow them to dream of the possibilities and explore the work venues in this area The book had to be a mile wide and a few inches deep The editors met this goal by engaging experts from a number of fields and asking them to come together to create an introductory IoT book Fundamentals of Internet of Things for Non Engineers Provides a comprehensive view of the current fundamentals and the anticipated future trends in the realm of Internet of Things from a practitioner s point of view Brings together a variety of voices with subject matter expertise in these diverse topical areas to provide leaders students and lay persons with a fresh worldview of the Internet of Things and the background to succeed in related technology decision making Enhances the reader s experience through a review of actual applications of Internet of Things end points and devices to solve business and civic problems along with notes on lessons learned Prepares readers to embrace the Internet of Things era and address complex business social operational educational and personal systems integration questions and opportunities      Building Business-Ready
