**Virtues of Renewal** Jeffrey Bilbro, 2018-12-14 For over fifty years Wendell Berry has argued that our most pressing ecological and cultural need is a renewed formal intelligence a mode of thinking and acting that fosters the health of the earth and its beings Yet the present industrial economy prioritizes a technical self centered way of relating to the world that often demands and rewards busyness over thoughtful observation independence over relationships and replacing over repairing Such a system is both unsustainable and results in destructive far reaching consequences for our society and land In *Virtues of Renewal* Wendell Berry's Sustainable Forms Jeffrey Bilbro combines textual analysis and cultural criticism to explain how Berry's literary forms encourage readers to practice virtues of renewal While the written word alone cannot enact change Bilbro asserts that Berry's poetry essays and fiction can inspire people to as Berry writes practice resurrection Bilbro examines the distinct yet symbiotic features of these three genres demonstrating the importance of the humanities in supporting tenable economies He uses Berry's pieces to suggest the need for more robust language for discussing conservation ecology and the natural and regenerative process of death Bilbro additionally translates Berry's literature to a wider audience putting him in conversation with philosophers and theologians such as Ivan Illich Willie Jennings Charles Taylor and Augustine The lessons that Berry and his work have to offer are not only for those interested in cultivating the land but also for those who cultivate their communities and live mindfully In short these lessons are pertinent to all who are willing to make an effort to live the examined life Such formative work is not dramatic or quick but it can foster the deep and lasting transformation necessary to develop a more sustainable culture and economy

**Honorable Business** James R. Otteson, 2019-01-30 Business has a bad name for many people It is easy to point to unethical and damaging behavior by companies And it may seem straightforward to blame either individuals or more generally ruthless markets and amoral commercial society In *Honorable Business* James R Otteson argues that business

activity can be valuable in itself The primary purpose of honorable businesses is to create value for all parties They look for mutually voluntary and mutually beneficial transactions so that all sides of any exchange benefit leading to increasing prosperity not just for one person or for one group at the expense of others but simultaneously for everyone involved Done correctly honorable business is a positive sum activity that can enable flourishing for individuals and prosperity for society Otteson connects honorable business with the political economic and cultural institutions that contribute to a just and humane society He builds on Aristotle's conception of human beings as purposive creatures who are capable of constructing a plan for their lives that gives them a chance of achieving the highest good for humanity focusing on autonomy and accountability as well as good moral judgment This good judgment can enable us to answer the why of what we do not just the how He also draws on Adam Smith's moral philosophy and political economy and argues that Smithian institutions have played a significant role in the remarkable increase in worldwide prosperity we have seen over the last two hundred years Otteson offers a pragmatic Code of Business Ethics linked to a specific conception of professionalism and defends this Code on the basis of a moral mandate to use one's limited resources of time talent and treasure to provide value for oneself only by simultaneously providing value to others The result is well articulated parameters within which business can be an acceptable perhaps even praiseworthy activity
