Science: Understanding the Climate Crisis Peter Loxley, 2022-09-26 *Big Ideas in Primary Science: Understanding the Climate Crisis* takes a fresh approach to learning the science of climate change. It combines new thinking in science teaching using big ideas with our growing need to look after our planet and encourages children to learn from what scientists have to say about issues that will impact their lives today and in the future. The book offers primary teachers the subject and pedagogical knowledge as well as the confidence they need to integrate the seeds of big ideas into their curriculum. It provides models of good practice which exemplify how primary-aged children can work towards understanding some of science's big ideas and engage with important issues related to climate change. There are also opportunities for children to develop skills and understanding from other curriculum areas such as geography, design, technology, and art. The easy-to-use book covers topics such as Weather, Climate, Climate change, Impact of the climate crisis on our lives, Impact of the climate crisis on wildlife, The world we must create, Taking climate action. By making the ideas their own, children can develop informed ways of thinking about issues related to climate change and feel empowered to act in ways which can make a difference. Full of ideas about the climate crisis, *Big Ideas in Primary Science* is a comprehensive, valuable, and essential resource for all teachers of primary science.

Reducing Your Own Carbon Footprint: Footprints At The Mall And In The Trash Gr. 5-8 George Graybill, 2017-05-18 This is the chapter slice *Footprints At The Mall And In The Trash Gr 5-8* from the full lesson plan *Reducing Your Own Carbon Footprint*. Engage students in global climate change by personalizing their own carbon footprint. Our resource introduces students to the effects of global climate change and its human-related causes. Start with a detailed look at the greenhouse effect. Identify all the ways a kitchen uses energy. Break down the steps involved with farm to table and how each step adds to the carbon footprint. Calculate your travel footprint and learn ways to help reduce it. Understand that your carbon footprint doesn't lessen after throwing things out. Look at the bigger picture and calculate how your own carbon footprint fits with the community. Help reduce the carbon footprint by brainstorming ways to make environmentally friendly rules part of the social contract. Written to Bloom's Taxonomy and STEAM initiatives, additional graphic organizers, carbon footprint calculator, crossword, word search, comprehension quiz, and answer key are also included.

Carbon Footprints as Cultural-Ecological Metaphors Anita Girvan,2017-10-10 Through an examination of carbon footprint metaphors this books demonstrates the ways in which climate change and other ecological issues are culturally and materially constituted through metaphor The carbon footprint metaphor has achieved a ubiquitous presence in Anglo North American public contexts since the turn of the millennium yet this metaphor remains under examined as a crucial mediator of political responses to the urgent crisis of climate change Existing books and articles on the carbon footprint typically treat this metaphor as a quantifying metric with little attention to the shifting mediations and practices of the carbon footprint as a metaphor This gap echoes a wider gap in understanding metaphors as key figures in mediating more than human relations at a time when such relations profoundly matter As a timely intervention this book addresses this gap by using insights from environmental humanities and political ecology to discuss carbon footprint metaphors in popular and public texts This book will be of great interest to researchers and students of environmental humanities political ecology environmental communication and metaphor studies
