Doordash Update:

Regulating Gig Work Joellen Riley Munton, Michael Rawling, 2023-12-12 Digital revolution demands new approaches to regulating work The Uberisation of work is not in reality a new phenomenon It reintroduces the practices of on demand engagement of labour common prior to the development of continuing employment What is new however is the capacity of digital technology to engage labour in ways that avoid characterisation as employment according to the legal tests developed in the 20th century This book tackles the challenge of ensuring that the emerging tribes of gig workers in labour markets across the globe are afforded decent standards of work This book discusses how to provide decent conditions and safe working standards for on demand workers engaged through digital platforms It interrogates the rise of gig work and the legal strategies that might be engaged to deal with the risk that on demand work will fall and remain outside of employment protections It draws on observations of practices across the globe but focusses particularly on regulatory solutions developed in Australia The book will be a useful reference to policy making and legal reforms to address vulnerabilities of gig workers

The Next Supper Corey Mintz, 2021-11-16 A searing expose of the restaurant industry and a path to a better safer happier meal In the years before the pandemic the restaurant business was booming Americans spent more than half of their annual food budgets dining out In a generation chefs had gone from behind the scenes laborers to TV stars The arrival of Uber Eats DoorDash and other meal delivery apps was overtaking home cooking Beneath all that growth lurked serious problems Many of the best restaurants in the world employed unpaid cooks Meal delivery apps were putting restaurants out of business And all that dining out meant dramatically less healthy diets The industry may have been booming but it also desperately needed to change Then along came COVID 19 From the farm to the street side patio from the sweaty kitchen to the swarm of delivery vehicles buzzing about our cities everything about the restaurant business is changing for better or worse The Next Supper tells this story and offers clear and essential advice for what and how to eat to ensure the well being of cooks and waitstaff not to mention our bodies and the environment The Next Supper reminds us that breaking bread is an essential human activity and charts a path to preserving the joy of eating out in a turbulent era *Hospitality and Travel*

Ballou,2023-05-02 The infuriating illuminating essential Kurt Anderson expos of private equity what it is how it kills businesses and jobs how the government helps and how we stop it Private equity surrounds us Firms like Blackstone Carlyle and KKR are among the largest employers in America and hold assets that rival those of small countries Yet few understand what these firms are or how they work In *Plunder* Brendan Ballou explains how private equity has reshaped American business by raising prices reducing quality cutting jobs and shifting resources from productive to unproductive parts of the economy Ballou vividly illustrates how many private equity firms buy up retailers medical practices prison services nursing home chains and mobile home parks among other businesses using little of their own money to do it and avoiding debt and liability for their actions Forced to take on huge debts and pay extractive fees companies purchased by private equity firms are often left bankrupt or shells of their former selves with consequences to communities that long depended on them Perhaps most startling is Ballou s insight into how this is happening with the active support of various arms of the government But as Ballou reveals in an agenda for reining in the industry private equity can be stopped from wreaking further havoc *Mass Communication* Ralph E.
