Global Higher Education Practices in Times of Crisis Dieu Hack-Polay, Deborah Lock, Andrea Caputo, Madhavi Lokhande, Uday Salunkhe, 2024-11-25 Taking forward the notion of the scholar without borders *Global Higher Education Practices in Times of Crisis* provides a critical review of the teaching practices in international higher education in the post COVID era

Social Justice and the World of Work Brian Langille, Anne Trebilcock, 2023-02-23 In this book leading international thinkers take up the demanding challenge to rethink our understanding of social justice at work and our means for achieving it at a time when global forces are tearing the familiar fabric of our working lives and the laws regulating them When fabric is torn we can see deeply into it understand its structural weaknesses and imagine alterations in the name of resilience and sustainability Seizing that opportunity the authoritative commentators examine the lessons revealed by the pandemic and other global shocks for our ideas about justice at work and how to advance that cause in the world as we now find it The chapters deliver critical re assessments of our goals explore our new challenges and creatively re imagine trajectories for progress on two global fronts via international institutions and by a myriad of other transnational techniques These forward looking essays are in honour of Francis Maupain whose international career and scholarly writing are inspiring models for those who in a changing world seize opportunities for creativity in the pursuit of global justice at work

Futureproofing Engineering Education for Global Responsibility Michael E. Auer, Tiia Rüütman, 2025-03-22 This book contains papers in the fields of Collaborative learning Digital transition in education AI and learning analytics in engineering education Diversity in engineering education The authors are currently witnessing a significant transformation in the development of education on all levels and especially in post secondary and higher education To face these challenges higher education must find innovative and effective ways to respond in a proper way Changes have been made in the way we teach and learn including the massive use of new means of communication such as videoconferencing and other technological tools Moreover the current explosion of artificial intelligence tools is challenging teaching practices maintained for centuries Scientifically based statements as well as excellent best practice examples are necessary for effective teaching and learning engineering The 27th International Conference on Interactive Collaborative Learning ICL2024 and 53rd Conference of International Society for Engineering Pedagogy IGIP which took place in Tallinn Estonia between 24 and 27 September 2024 was the perfect place where current trends in higher education were presented and discussed IGIP conferences have been held since 1972 on research results and best practices in teaching and learning from the point of view of engineering pedagogy science ICL conferences have been held since 1998 being devoted to new approaches in learning with a focus on collaborative learning in Higher Education Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in learning and Engineering Pedagogy In this way the authors try to bridge the gap between pure scientific research and the everyday work of educators
