Public Higher Education That Works Mitchel B. Wallerstein, 2024 Discover how one public higher education institution was able to succeed despite the many obstacles and challenges that it faced This is the story of how and why Baruch College of The City University of New York became a positive outlier overcoming serious financial constraints physical space limitations and other difficulties to be highly ranked academically and financially stable During a tumultuous time for public higher education Baruch has graduated tens of thousands of smart and striving individuals the majority of whom were the first in their family ever to attend college with little or no educational debt As the former president of the college Mitchel Wallerstein analyzes the lessons learned and he identifies the specific factors that explain Baruch's success He addresses the question of whether there is anything unique about Baruch's approach a secret sauce so to speak that accounts for its academic success and financial strength and he considers whether the Baruch model can be replicated by other public institutions Book Features Reviews the history of public higher education its development in the state of New York and the important role it has played in the economic development of the United States Presents a unique comparative analysis of 15 public higher education institutions in 6 states across the country comparing their strengths and standing in relation to one another and to Baruch College Explores the replicability and sustainability of the Baruch model in the context of other public higher education institutions across the country Reflects on the current and future challenges facing public higher education in the 21st century

Accountability in American Higher Education K. Carey, M. Schneider, 2010-12-20 In *Accountability in American Higher Education* prominent academics entrepreneurs and journalists assess the obstacles to and potential opportunities for accountability in higher education in America Providing analysis that can be used to engage institutions of higher education in the difficult but necessary conversation of accountability

American Best Colleges Mortimer Zuckerman, 1997-09 **The Alcalde**, 1999-01 As the magazine of the Texas Exes The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years The Alcalde serves as an intellectual crossroads where UT's luminaries artists engineers executives musicians attorneys journalists lawmakers and professors among them meet bimonthly to exchange ideas Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater The magazine's unique name is Spanish for mayor or chief magistrate the nickname of the governor who signed UT into existence was The Old Alcalde

U.S. News & World Report, 2008 **The New York Times Magazine**, 2004 **School**, 1895 **Who Gets In and Why** Jeffrey Selingo, 2020-09-15 From award winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office one that identifies surprising strategies that will aid in the college search Getting into a top ranked college has never seemed more impossible with acceptance rates at some elite universities dipping into the single digits In *Who Gets In and Why* journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the

admissions game and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a good college Hint it s not all about the sticker on the car window Selingo who was embedded in three different admissions offices a selective private university a leading liberal arts college and a flagship public campus closely observed gatekeepers as they made their often agonizing and sometimes life changing decisions He also followed select students and their parents and he traveled around the country meeting with high school counselors marketers behind the scenes consultants and college rankers While many have long believed that admissions is merit based rewarding the best students Who Gets In and Why presents a more complicated truth showing that who gets in is frequently more about the college s agenda than the applicant In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions admissions officers often make split second decisions based on a variety of factors like diversity money and ultimately whether a student will enroll if accepted One of the most insightful books ever about getting in and what higher education has become Who Gets In and Why not only provides an unusually intimate look at how admissions decisions get made but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests Journal of Proceedings and Addresses of the ... Annual Meeting Held at ... National Education Association of the United States,1911 **Honey** ,2001-02 **CEA.
