The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre: i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

The Complete Idiot's Guide to Classic Movies Lee Pfeiffer, 2006-11-07 Sit back, grab some popcorn, and let the credits roll. *The Complete Idiot's Guide to Classic Movies* provides comprehensive information on the best classic films from the silent era up through 1969, cross-referenced several different ways for easy access. Also contains fun insider trivia and facts about the movies, the stars, and factors that influenced the movie or the audience at the time of the movie's release. Written by a recognized name in the industry who has written books on movies and film for decades. Features only the best movies: 3 and 4 stars from the silent era up through 1969. Offers several indexes which are cross-referenced alphabetically by actor and director, in addition to the main text being indexed by film name and genre. Includes appendices that provide information on the top 100 films of all time, the greatest movie quotes, Academy Award winners, and Internet references for locating hard-to-find films.

In Theaters Everywhere Brian Hannan, 2018-12-31 Conflicts among Hollywood studios and exhibitors have been going on for years. At their heart are questions about how films should be released, where, when, and at what speed. Both sides of this disagreement are losers: exhibitors using the law via various Consent Decrees, and studios retaliating by tightly controlling output. In the Silent Era, movies were not released nearly as widely as they are now. This book tells the story of how the few became the many. It explores the contraction of the release cycle, the maximization of the marketing dollar, and the democratization of consumer access. It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found.
