Memes Today 2025:

The Meme as the Message Joanna Nowotny, Julian Reidy, 2025-10-31 This book sheds light on the phenomenon of memes covering everything from pandemic humour to far right propaganda from feminist memes to algorithmic censorship. Memes are far more than light entertainment; they are complex cultural artefacts that play a role in politics, in art, and in platform economics. Taking a cultural studies perspective, the authors analyse individual memes in entertaining case studies, systematising their findings in order to redefine this digital form of communication. Chapters connect memes with other digital phenomena such as trolling and combine extensive close readings of exemplary individual memes with regards to form and aesthetics with an acute awareness of power dynamics and other context phenomena surrounding memes. The book develops an innovative theoretical approach that presents the term *memesis* to capture the very specific quality of meme production and reception as a form of collective creative rewriting of a template in accordance with algorithmic logic. Offering an important contribution not only to the still young field of meme studies but also to the general negotiations of questions around digital literacy, this book will interest not only scholars and students of digital media, visual communication, cultural studies, and media and politics but anyone with a keen interest in digital culture and how it shapes our lives.

Global Perspectives on Indigenous Film and Literature Amar Ramesh Wayal, A. P. Anupama, 2025-09-22 This edited volume comprehensively explores narrative survival in Indigenous film and literature, forging a literary and transitional approach to native writing. It navigates the evolution of Indigenous voices spanning the oral tradition and literary forms from colonial times to the present. It covers a range of issues related to indigenous inequalities and diversities in film and literature. With chapters from global perspectives including North America, Canada, New Zealand, and South Asia, it ensures an inclusive exploration of indigenous narratives. The diverse chapters address topics such as the aboriginal experience, residential school legacy, the invisible nation of Algonquins, tribal songs, decolonial futures, caste survival, narrative trauma, and other marginalized groups such as low castes, linguistic minorities, and Adivasis tribals. The book focuses on innovative concepts to understand the study of a particular indigenous group in isolation from others and more than the conventional comparative study of different indigenous groups. It deals with the challenges of achieving local indigenous rights and identities. It is a valuable resource for social science and humanities scholars, particularly for indigenous scholars, development professionals, and administrators interested in the issues related to social diversity and indigeneity in a global setting. **Libraries**
