**Popular Music in a Digital Music Economy** Tim Anderson,2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments      **Billboard** ,1962-07-14 In its 114th year *Billboard* remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends      **CMJ New Music Report** ,2003-12-22 *CMJ New Music Report* is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales *CMJ* s trade publication compiles playlists for college and non commercial stations often a prelude to larger success      CMJ New Music Report ,2006      **Billboard** ,1965-04-10 In its 114th year *Billboard* remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends      Billboard ,1962-08-11 In its 114th year *Billboard* remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends      **Miscellaneous Reports. Belzer, 1984 Songwriter's Market William Brohaugh, Adria Haley, Cris Freese, 1995 The Inland Architect and News Record ,1885 **The Hollywood Reporter** ,2006 *The Internal Revenue Record and Customs Journal* ,1870 **Post-colonial Distances** Beverley Diamond, Denis Crowdy, Daniel Mark Downes, 2008 This anthology emanated from a conference in St John's Newfoundland that brought together popular music scholars folklorists and ethnomusicologists from Canada and Australia Implicit in that conference and in this anthology is the comparability of the two countries Their post colonial status if that is indeed an appropriate modifier in either case has some points of similarity On the other hand their distance from hegemonic centres from colonial histories is arguably more a matter of contrast than similarity Canada and Australia are similar in various regards Post colonial in the sense that they are both former British colonies they now each have more than a century of stature as nation states By the beginning of the 21st century they are each modest in size but rich in ethnocultural diversity Nonetheless each country has some skeletons in the closet where openness to difference to indigenous and new immigrant groups are concerned Both countries are similarly both experiencing rapid shifts in cultural makeup with the biggest population increases in Australia coming from China India and South Africa and the biggest in Canada from Afro Caribbean South Asian countries and China The chapters in this anthology constitute an important comparative initiative Perhaps the most obvious point of comparison is that both countries create commercial music in the shadow of the hegemonic US and British industries As the authors demonstrate both proximity specifically Canada's nearness to the US and distance have advantages and disadvantages As the third and fourth largest Anglophone music markets for popular music they face similar issues relating to music management performance markets and production A second relationship as chapters in this anthology attest is the significant movement between the two countries in a matrix of

exchange and influence among musicians that has rarely been studied hitherto Third both countries invite comparison with regard to the popular music production of diverse social groups within their national populations In particular the tremendous growth of indigenous popular music has resulted in opportunities as well as challenges Additionally however the strategies that different waves of immigrants have adopted to devise or localize popular music that was both competitive and meaningful to their own people as well as to a larger demographic bear comparison The historical similarities and differences as well as the global positionality of each country in the early 21st century then invites comparison relating to musical practices social organization lyrics as they articulate social issues career strategies industry structures and listeners
