Plantation Cookbook Random House Value Publishing Staff, **Georgia's Historical Recipes** Valerie J. Frey, 2025-05 Georgia's Historical Recipes is an exploration of our state's oldest recipes from the antebellum period through World War II as painstakingly researched by Georgia archivist Valerie J. Frey. This volume begins with a discussion of old recipes as primary sources and what they can tell us about the history and culture of their era and how to bring them to life in modern kitchens. Frey then moves into fifty sections that can be read alone yet allow readers to build an understanding of how foodways evolved over time. Some sections highlight a single recipe illustrating how changes in technology, agriculture, transportation, communication, and social patterns led to changes in Georgia kitchens. Most of the recipes are previously unpublished, waiting in archives to be rediscovered. Other sections explore our oldest cookbooks, offering biographical and cultural background information that makes them more meaningful. For the first time, Georgians have a list of the state's early cookbooks and its cooking experts. Readers will learn where to find Georgia's oldest recipes and discover many examples to whet their appetites literally and figuratively for a taste of Georgia's past.

The Jemima Code Toni Tipton-Martin, 2022-07-01 Winner James Beard Foundation Book Award 2016, Art of Eating Prize 2015, BCALA Outstanding Contribution to Publishing Citation, Black Caucus of the American Library Association 2016. Women of African descent have contributed to America's food culture for centuries, but their rich and varied involvement is still overshadowed by the demeaning stereotype of an illiterate Aunt Jemima who cooked mostly by natural instinct. To discover the true role of black women in the creation of American and especially southern cuisine, Toni Tipton Martin has spent years amassing one of the world's largest private collections of cookbooks published by African American authors, looking for evidence of their impact on American food families and communities and for ways we might use that knowledge to inspire community wellness of every kind. The Jemima Code presents more than 150 black cookbooks that range from a rare 1827 house servant's manual, the first book published by an African American in the trade, to modern classics by authors such as Edna Lewis and Vertamae Grosvenor. The books are arranged chronologically and illustrated with photos of their covers; many also display selected interior pages, including recipes. Tipton Martin provides notes on the authors and their contributions and the significance of each book, while her chapter introductions summarize the cultural history reflected in the books that follow. These cookbooks offer firsthand evidence that African Americans cooked creative masterpieces from meager provisions, educated young chefs operated food businesses, and nourished the African American community through the long struggle for human rights. The Jemima Code transforms America's most maligned kitchen servant into an inspirational and powerful model of culinary
