sensitivity and preferences and through them expands the idea of using finished objects The use of 1 200 bikes and the large structure of the work were particular challenges in the construction of the piece In addition as the bikes are piled layer upon layer on top of each other their wheel axles are transformed to form a labyrinthine like space Visitors can appreciate and reflect on the aesthetics of the abstract shapes from different angles at the same time feeling first hand the work s great energy and appeal Date October 29 2011 January 29 2012 Using Information Technology Brian K.
