Drinking from Graveyard Wells Yvette Lisa Ndlovu, 2023-03-07 Even in death, who has ownership over Black women's bodies? Questions like this lurk between the lines of this stunning collection of stories that engage with African women's histories, both personal and generational. Their history is not just one thing; there is heartbreak and pain and joy and flying and magic, so much magic. An avenging spirit takes on the patriarchy from beyond the grave. An immigrant woman undergoes a naturalization ceremony in an imagined American state that demands that immigrants pay a toll of the thing they love the most. A first-generation Zimbabwean American woman, haunted by generational trauma, is willing to pay the ultimate price to take her pain away, giving up her memories. A neighborhood gossip wakes up to find that houses are mysteriously vanishing in the night. A shapeshifting freedom fighter leaves a legacy of resistance to her granddaughter. In *Drinking from Graveyard Wells*, Yvette Lisa Ndlovu assembles poignantly reflective stories that center the voices of African women charting their own Black history through the ages. Ndlovu's stories play with genre from softly

surreal to deeply fantastical Each narrative is wrapped in the literary eloquence and tradition of southern African mythology transporting readers into the lives of African women who have fought across space and time to be seen Drawing on her own early experiences as a Zimbabwean living under the Mugabe dictatorship Ndlovu s stories are grounded in truth and empathy Ndlovu boldly offers up alternative interpretations of a past and a present that speculates upon the everyday lives of a people disregarded Her words explore the erasure of African women while highlighting their beauty and limitless magic Immersed in worlds both fantastical and familiar readers find themselves walking alongside these women grieving their pain and celebrating their joy all against the textured backdrop of Zimbabwe *The New Mobility Handbook, 2024 Edition*

Wow! I'm 80! Samuel Solomon,2019-05-23 When I reached my 80th birthday I was reminded of my thinking when I was in my late 30 s and my father was 72 He proudly stated he was a member of SCORE Service Corps of

Retired Executives and was helping local businesses I had difficulty believing he was capable of helping others based on his advanced age In retrospect I now realize he was almost 10 years younger than I am so I am documenting to share with others what someone in his 80 s can do

Raw Deal Steven Hill,2015-10-20 What s going to happen to my job That s what an increasing number of anxious Americans are asking themselves The US workforce which has been one of the most productive and wealthiest in the world is undergoing an alarming transformation Increasing numbers of workers find themselves on shaky ground turned into freelancers temps and contractors Even many full time and professional jobs are experiencing this precarious shift Within a decade a near majority of the 145 million employed Americans will be impacted Add to that the steamroller of automation robots and artificial intelligence already replacing millions of workers and projected to obsolesce millions more and the jobs picture starts looking grim Now a weird yet historic mash up of Silicon Valley technology and Wall Street greed is thrusting upon us the latest economic fraud the so called sharing economy with companies like Uber Airbnb and TaskRabbit allegedly liberating workers to become independent and their own CEOs hiring themselves out for ever smaller jobs and wages while the companies profit But this share the crumbs economy is just the tip of a looming iceberg that the middle class is drifting toward

Sugar Daddy Capitalism Peter Fleming,2018-11-26 What is the connection between the sleaziness of Harvey Weinstein s business meetings and the passionless doctrine of neoclassical economics In this witty and incisive examination of the new economy Peter Fleming argues that they are closer than you might think The quest to rid society of bureaucracy shrink government and burn red tape has certainly made capitalism more human but not in the family friendly way envisaged by free market gurus Increasing informality has led to a capitalism fuelled by limitless exploitation and increasingly seedy methods of management from semi feudal workplace hazing rituals and predatory middle managers with an axe to grind to arbitrary zero hours contracts Uber and perhaps worst of all the compulsory gym session with your boss Fleming dubs this Sugar Daddy Capitalism after the controversial dating app wealthy businessmen use to meet young girls most of whom are struggling with university fees What seems like a creepy outlier is actually a prescient metaphor for our whole economy an anonymous and impersonal cash system that is also intent on getting under your skin extra close and capable of ruining everything if you say no

Stucke, 2024-05-21 Two market experts deconstruct the drivers and inhibitors to innovation in the digital economy explain how large tech companies can stifle disruption assess the toll of their technologies on our well being and democracy and outline policy changes to take power away from big tech and return it to entrepreneurs Silicon Valley's genius combined with limited corporate regulation promised a new age of technological innovation in which entrepreneurs would create companies that would in turn fuel unprecedented job growth Yet disruptive innovation has stagnated even as the five leading tech giants which account for approximately 25 percent of the S P 500's market capitalization are expanding to unimaginable scale and power In *How Big Tech Barons Smash Innovation and How to Strike Back* Ariel Ezrachi and Maurice E Stucke explain why this is happening and what we can do to reverse it While many distrust the Big Tech Barons the prevailing belief is that innovation is thriving online It isn't Rather than disruptive innovations that create significant value we are getting technologies that primarily extract value and reduce well being Using vivid examples and relying on their work in the field the authors explain how the leading tech companies design their sprawling ecosystems to extract more profits while crushing any entrepreneur that poses a threat As a result we get less innovation that benefits us and more innovations that surpass the dreams of yesteryears autocracies The Tech Barons technologies which seek to decode our emotions and thoughts to better manipulate our behavior are undermining political stability and democracy while fueling tribalism and hate But it's not hopeless The authors reveal that sustained innovation scales with cities not companies and that we as a society should profoundly alter our investment strategy and priorities to certain entrepreneurs Tech Pirates and cities infrastructure *The Earliest Advocates of the English Bible* Mary Dove, 2010 Brings together for the first time the Middle English texts of the debate concerning
