Plasma Dreams:

... And Dreams Are Dreams Vassilis Vassilikos, 2018-02-27 Greece's most acclaimed living novelist gives us a magical realist portrait of contemporary Europe and contemporary Europeans. Here are seven tales that explore the themes of materialism, post-Cold War politics, love, religious faith, and the power of imagination. In the tradition of Gabriel Garcia Marquez and Luigi Pirandello, Vassilikos writes of the fantasies within reality, the spirit in existence, and the art within life.

Between the Moon and Earth Jay Alfred, 2007-01-18 Are heavens and hells parallel realities in a multiverse? What has plasma got to do with it? Since the dawn of history, various cultures have imagined heaven and the abode of gods to be literally located in some part of the sky and hell in the interior of the Earth. From a modern scientific perspective, these were the earliest concepts of parallel universes, and the idea of a multiverse, which is a serious area of research in cutting-edge physics today. This book presents a model supported by scientific evidence which can shed more light on the intuitive traditional view. It appears that after the death of the ordinary matter body, a plasma counterpart of that body will indeed find itself in an invisible, higher-energy plasmasphere which interpenetrates and co-rotates with the familiar visible form of planet Earth. Depending on their composition, these plasma bodies will gravitate or levitate into particular shells that host their own communities in the relevant plasmasphere, consistent with established scientific laws in plasma dynamics. The higher shells coincide with the visible atmosphere and beyond. The lower shells coincide mainly with the crust and upper mantle of the ordinary matter Earth. This book takes a detailed look at the habitats of these human-linked plasma life forms. It is a companion volume to the author's book *Our Invisible Bodies*, which focuses mainly on the nature of the bodies of these plasma life forms.

Dreaming of Eden James Lucien, *Dreaming of Eden* is a rapid-paced action-heavy post-cyberpunk thriller supercharged with excitement and enlightenment. A full-length novel with a spiritual journey laced between the hammering heartbeats of the inspirational story.
