European Union Investigates Temu

A Temu is a Chinese-owned online retail store. The online retailer is facing a European Union investigation over allegations it's failing to prevent the sale of illegal products, the 27-nation bloc's executive arm said on Thursday.

B The European Commission opened its investigation five months after adding Temu to the list of "very large online platforms" needing the strictest level of scrutiny under the bloc's Digital Services Act. It's a wide-ranging rulebook designed to clean up online platforms and keep internet users safe, with the threat of hefty fines.

Photo of Chinese site Temu

Temu started entering Western markets only in the past two years and has grown in popularity by offering cheap goods — from clothing to home products — that are shipped from sellers in China. The company, owned by Pinduoduo Inc., a popular e-commerce site in China, now has 92 million users in the EU. Temu said it "takes its obligations under the DSA seriously, continuously investing to strengthen our compliance system and safeguard consumer interests on our platform."

European Commission Executive Vice-President Margrethe Vestager said in a press release that Brussels wants to make sure products sold on Temu's platform "meet EU standards and do not harm consumers." The commission's investigation will look into whether Temu's systems are doing enough to crack down on "rogue traders" selling "non-compliant goods" and concerns that they are able to swiftly reappear after being suspended. The commission didn't single out specific illegal products that were being sold on the platform.

C Regulators are also examining the risks from Temu's "addictive designs," including "game-like" reward programs, and what the company is doing to mitigate those risks.

Also under investigation is Temu's compliance with two other DSA requirements: giving researchers access to data and transparency on recommended systems. Companies must be detail how they recommend content and products, and give users at least one option to see recommendations that are not based on their personal profile and preferences.

Temu now has the chance to respond to the commission, which can decide to impose a fine or drop the case if the company makes changes or can prove that the suspicions aren't valid. Temu has also faced scrutiny in the United States, where a Congressional report last year accused the company of failing to prevent goods made by forced labor from being sold on its platform.
