Reinventing the Supply Chain Jack Buffington,2023-04-03 An original vision for using technology to transform supply chains into value chains in order to revitalize American communities When the COVID 19 pandemic led to a global economic shutdown in March 2020 our supply chains began to fail and out of stocks and delivery delays became the new norm Contrary to public perception the pandemic strain did not break the current system of supply chains it merely exposed weaknesses and fault lines that were decades in the making and which were already acutely felt in deindustrialized cities and depopulated rural towns throughout the United States Reinventing the Supply Chain explores the historical role of supply chains in the global economy outlines where the system went wrong and what needs to be done to fix it and demonstrates how a retooled supply chain can lead to the revitalization of American communities Jack Buffington proposes a transformation of the global supply chain system into a community based value chain led by the communities themselves and driven by digital platforms for raising capital and blockchain technology Buffington proposes new solutions to problems that have been decades in the making With clear analysis and profound insight Buffington provides a clear roadmap to a more durable and efficient system

Admap ,2010 *The Publishers Weekly* ,1997 *The Freeman* ,2006 **Chain Store Age** ,2009-07 **Prioritizing Web Usability** Jakob Nielsen,Hoa Loranger,2006 Describes Web site usability through critiques of real world sites covering such factors as legibility navigability searchability and design
