Piracy Cultures Manuel Castells, Gustavo Cardoso EDS, 2013-02-25 Piracy Cultures Editorial Introduction MANUEL CASTELLS 1 University of Southern California GUSTAVO CARDOSO Lisbon University Institute ISCTE IUL What are Piracy Cultures Usually we look at media consumption starting from a media industry definition We look at TV radio newspapers games Internet and media content in general all departing from the idea that the access to such content is made available through the payment of a license fee or subscription or simply because its either paid or available for free being supported by advertisements or under a freemium business model That is we look at content and the way people interact with it within a given system of thought that sees content and its distribution channels as the product of relationships between media companies organizations and individuals effectively a commercial relationship of a contractual kind with accordant rights and obligations But what if for a moment we turned our attention to the empirical evidence of media consumption practice not just in Asia Africa and South America but also all over Europe and North America All over the world we are witnessing a growing number of people building media relationships outside those institutionalized sets of rules We do not intend to discuss whether we are dealing with legal or illegal practices our launching point for this analysis is that when a very significant proportion of the population is building its mediation through alternative channels of obtaining content such behavior should be studied in order to deepen our knowledge of media cultures Because we need a title to characterize those cultures in all their diversity but at the same time in their commonplaceness we propose to call it Piracy Cultures

Introduction to Arts Management Jim Volz, 2017-09-21 Introduction to Arts Management offers a unique dynamic and savvy guide to managing a performing or visual arts organization be that an arts center theatre museum art gallery symphony orchestra or other arts company For those training to enter the industry workers in arts administration or those seeking to set up their own company the wealth of expert guidance and direct accessible style of this authoritative manual will prove indispensable Gathering best practices in strategic planning marketing fundraising and finance for the arts the author shares practical proven processes and valuable tools from his work with over 100 arts companies and professional experience producing over 100 music dance theatre and visual arts events Unique features include boilerplate guides for marketing and fundraising a sample Board of Trustee contract specific budget checklists day to day working tools that can be immediately instituted in any arts organization resources at the end of each chapter designed to help readers consider and implement the strategies in their own practice Interviews with arts leaders offer insights into the beginnings and growth of significant arts institutions while examples based on real situations and successful arts organizations from both North America and Britain illustrate and underpin the strategic and practical advice Expanded from the author's highly successful *How to Run a Theatre* this edition offers both trainees and seasoned professionals the hands on strategic leadership tools needed to create build and nurture a successful career in the challenging world of arts administration and management
