Sovereignty in a Digital Age Aaron Schneider, 2024-08-01 In the evolution of global capitalism and geopolitics digitalization

presents a new and yet unresolved chapter In the lead up to digitalization neoliberalism weakened the welfare states of the global North and the developmental states of the global South where they existed Neoliberalism also disorganized working classes as Left parties and labor organization declined across the globe Into this deregulated and unchecked context digitalization proceeded and technology companies inserted themselves into multiple sectors making use of first mover advantage and monopolistic practices to drive out smaller and less advanced firms We can now characterize a landscape in which states have been weakened working classes disorganized and rival firms greatly handicapped allowing big tech to operate as all powerful quasi monopolies They enjoy unprecedented concentration of wealth power and advantage Worryingly deregulated technology now penetrates many areas of life with surveillance and control setting us on a path towards anti democratic neo imperial and exclusionary futures Aaron Schneider offers a popular and sovereign alternative with particular focus on labor and the global South

The Century Dictionary and Cyclopedia William Dwight Whitney, Benjamin Eli Smith, 1899 **Essential Labor** Angela Garbes, 2022-05-10 NATIONAL BESTSELLER Angela Garbes has given us the definitive explanation for something we all share the sense that something is not right about our society's treatment of parenting **Essential Labor** is a beautifully written painstakingly researched and courageously personal book Garbes reveals the way systems exploit caregiving and shows us how the essential work of mothering can fix not just family life but society A timely and unforgettable book Heather McGhee New York Times bestselling author of *The Sum of Us* From the acclaimed author of *Like a Mother* comes a reflection on the state of caregiving in America and an exploration of mothering as a means of social change The Covid 19 pandemic shed fresh light on a long overlooked truth mothering is among the only essential work humans do In response to the increasing weight placed on mothers and caregivers and the lack of a social safety net to support them writer Angela Garbes found herself pondering a vital question How under our current circumstances that leave us lonely exhausted and financially strained might we demand more from American family life In **Essential Labor** Garbes explores assumptions about care work and deservedness offering a deeply personal and rigorously reported look at what mothering is and can be A first generation Filipino American Garbes shares the perspective of her family's complicated relationship to care work placing mothering in a global context the invisible economic engine that has been historically demanded of women of color Garbes contends that while the labor of raising children is devalued in America the act of mothering offers the radical potential to create a more equitable society In **Essential Labor** Garbes reframes the physically and mentally draining work of meeting a child's bodily and emotional needs as opportunities to find meaning to nurture a deeper sense of self pleasure and belonging This is highly skilled labor work that impacts society at its most foundational level Part galvanizing manifesto part poignant narrative **Essential Labor** is a beautifully rendered reflection on care that reminds us of the irrefutable power and beauty of mothering
