**Trading for Beginners** Giuseppe Scuti, The key to consistent profits is not as elusive as most brand new self directed traders think I ask new traders do you want to get rich quick or do you want to get rich forever The easy part of investing and trading is making the mistakes the hard part is what to do with all the cash you will make from being patient and letting the market come to you and give you what you want New people who get into the trading business have dollar signs in their eyes They are buying Ferrari s and G650 s before they ever make a live trade The unrealistic expectations they have can cloud their judgment as to what is real and not real All they see is the amount of money that they can potentially make when it is how much money they can lose is what they should be focusing on They don t realize they are entering a business where the professional people have a kill everyone mentality when it comes to making money High Profit Price Action Trading for Beginners is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets The key to success in the investing and trading business is not making the mistakes your competition is making and learning to see them making those mistakes so you can profit from them Using price action in conjunction with supply and demand as well as end of day trading methods will empower you to make money right away in any liquid live market you wish to trade The beauty of this method is that it works on any asset class on any time frame You just have to learn to train your eyes to see the smart money and your competition on a trading chart at a glance and then take action to make money from them that part is up to you The principles in High Profit Price Action Trading for Beginners are the easiest fastest methods for a self directed beginner to learn right away which will put them on the fast track to driving their new money train to the bank every day You absolutely need to have a competitive edge in the markets and you must have it before you do anything in the live markets with real money The methods in High Profit Price Action Trading for Beginners are the best ways to get you started developing your money making edge Don t be the one who pays be the one who gets paid *How to do Set it and Forget it Day Trading* Ricardo Calca, Brand new day traders will love this book because it tells them the information they need to be able to have a low stress easy way of investing and trading the financial markets if they have zero or very limited experience The set it and forget it way of day trading swing trading or position trading is the easiest fastest and most low stress way of investing and trading there is for making high profits in

today's fast moving markets if you are a beginner with limited experience. With this type of supply and demand, set it and forget it investing and trading once you learn it and master it, you can be confident of setting your order in the live market and then taking your hand off the mouse and letting the market do all of the dirty work for you. It doesn't get any easier than that. If you are brand new to day trading and investing and are looking for a method which will allow you to learn the easiest and fastest way to begin making consistent high profits right away, then I encourage you to learn this method first as it will be the only method of trading you will need to use to make high profits consistently forever once you have learned and mastered the principles of supply and demand. Set it and forget it trading is the only way to have a truly hands off method of trading and investing where you can feel confident that you are making money with the smart money and letting them show you the way to high profits. Once you learn to see the smart money value areas on a price chart, you can set your order in the market where the smart money has theirs at, then just wait to get paid. No stress, no drama, just making money. Isn't that the way you would like to make money? You can get on the fast track to the knowledge you need with the information in this book. I encourage you to do what it says and to be diligent in your studies. This is some of the most important information you will read in your life as far as knowing what to do in the live market to win. Do you want to lose money right away or make money right away? You should take your time reading this book and read the entire book before you start your research into the education and training phase of set it and forget it trading. Do it the right way from the start on your first day and you should have no problem. Take your time, the market is always going to be there waiting to pay you. You can take that to the bank.

Beginning Investor & Traders Black Book Joe DiChristophoro, I wrote this Black book for all beginning aspiring investors and traders who are just getting their head around doing the investing and trading business. Everyone has their own ideas of what they think investing and trading are and what it can do for them. Beginning Investor Traders Black Book is the first book in my series of books for beginners I have coming out that will detail all of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. Brand new traders all make the same mistakes over and over because they don't know any better. They do what everyone else is doing and study what everyone else is studying, thus they have the same results and failures as everyone else. Don't be that trader. If you can just take the time to read this information in this first book in the new upcoming series, let it sink in and then continue on your educational journey, you will have done yourself a huge favor and also begun to give yourself the needed edge to succeed in this business. If you just think about what this book is telling you to do logically and what to study, you can soon be driving your new Ferrari down the road paved of gold right to the front door of your bank to deposit all of your profits from the success from your new investing and trading business. By the time you have read this entire book, you will know just what it takes to become a consistently profitable investor and trader in today's financial markets. You also will know the exact steps to take, what to study, and the order it should be learned in. All of the information you need to get going and become successful is in this book for the brand
