College Rankings Top Movies Compare:

The Force of Comparison Willibald Steinmetz, 2019-09-01 In an era defined by daily polls institutional rankings and other forms of social quantification it can be easy to forget that comparison has a long historical lineage Presenting a range of multidisciplinary perspectives this volume investigates the concepts and practices of comparison from the early modern period to the present Each chapter demonstrates how comparison has helped to drive the seemingly irresistible dynamism of the modern world exploring how comparatively minded assessors determine their units of analysis the criteria they select or ignore and just who it is that makes use of these comparisons and to what ends *Statistical Reference Index*, 1986

Who's #1? Amy N. Langville, Carl D. Meyer, 2013-12-01 The mathematics behind today's most widely used rating and ranking methods A website's ranking on Google can spell the difference between success and failure for a new business NCAA football ratings determine which schools get to play for the big money in postseason bowl games Product ratings influence everything from the clothes we wear to the movies we select on Netflix Ratings and rankings are everywhere but how exactly do they work Who's 1 offers an engaging and accessible account of how scientific rating and ranking methods are created and applied to a variety of uses Amy Langville and Carl Meyer provide the first comprehensive overview of the mathematical algorithms and methods used to rate and rank sports teams political candidates products Web pages and more In a series of interesting asides Langville and Meyer provide fascinating insights into the ingenious contributions of many of the field's pioneers They survey and compare the different methods employed today showing why their strengths and weaknesses depend on the underlying goal and explaining why and when a given method should be considered Langville and Meyer also describe what can and can't be expected from the most widely used systems The science of rating and ranking touches virtually every facet of our lives and now you don't need to be an expert to understand how it really works Who's 1 is the definitive introduction to the subject It features easy to understand examples and interesting trivia and historical facts and much of the required mathematics is included *A Comparison of Characteristics of Best and Poorest Readers in Classrooms* Louis (Rebmann) Quirk, 1966 [Exposure to Films and School Adjustment](#) Olena Sennton, 1965 **Statistical**
