**Why America Didn't Become Great Again** Robert Chernomas, Ian Hudson, 2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse Why America Didn't Become Great Again identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America's corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America Why America Didn't Become Great Again surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin **Fair Shake** Naomi Cahn, June Carbone, Nancy Levit, 2024-05-07 A stirring comprehensive look at the state of women in the workforce why women's progress has stalled how our economy fosters unproductive competition and how we can fix the system that holds women back In an era of supposed equality women are falling behind in the workplace faster than before a trend exacerbated by Covid 19 Even with more women in the workforce than in decades past wage gaps continue to increase It is the most educated women who have fallen the furthest from behind Blue collar women hold the most insecure and badly paid jobs in our economy And even as we celebrate high profile representation women on the board of Fortune 500 companies and our first female vice president women have limited recourse when they experience harassment and discrimination Fair Shake Women and the Fight to Build a Just Economy explains that the system that governs our economy a winner take all economy is the root cause of these myriad problems The WTA self selects aggressive cutthroat business tactics which creates a feedback loop that sidelines women The authors three legal scholars call this feedback loop the triple bind if women don't compete on the same terms as men they lose if women do compete on the same terms as men they're punished more harshly for their sharp elbows or actual misdeeds and when women see that they can't win on the same terms as men they take themselves out of the game as if they haven't been pushed out already With odds like these stacked against them it's no wonder women feel like no matter how hard they work they can't get ahead Drawing on rich storytelling often found in legal

documents Fair Shake makes a compelling case for why existing laws fail to protect women It not only diagnoses the problem of what s wrong with the modern economy but shows how with awareness and collective action we can build a truly just economy for all

**Strategic Retail Management** Joachim Zentes,Dirk Morschett,Hanna Schramm-Klein,2016-10-07 This book is devoted to the dynamic development of retailing The focus is on various strategy concepts adopted by retailing companies and their implementation in practice This is not a traditional textbook or collection of case studies it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study The examples are all internationally known retail companies to facilitate an understanding of what is involved in strategic retail management and illustrate best practices In the third edition all chapters were revised and updated Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication All case studies were replaced by new ones to reflect the most recent developments Well known retail companies from different countries like Tesco Zalando Hugo Boss Carrefour Amazon Otto Group are now used to illustrate particular aspects of retail management

The Next Antitrust Agenda American Antitrust Institute,2008 The American Antitrust Institute AAI was founded in 1998 as an independent nonprofit education research and advocacy organization Celebrating its tenth anniversary during the important 2008 presidential campaign the AAI determined to utilize this year to generate an integrated vision for re energizing competition policy in the United States Ours is a vision that departs in substantial ways from the outlook that has driven competition policy for much of the past generation We offer it to the next administration without presupposition as to which party will control Congress or who the President will be Traditionally the ideal of competition as the preferred regulator of business behavior has enjoyed bipartisan support beginning with the introduction of the Sherman Act in 1890 by a Republican and its signing into law by a Republican But interpretations of what constitutes healthy competition and priorities for enforcement have varied over time sometimes dramatically Indeed there have been periods of war or depression when the ideal of competition has been eclipsed by other priorities and policies Yet time and again the ideal has been rejuvenated by both Republicans and Democrats We argue that we should now be entering a period of reinterpretation and rejuvenation This Report is the edited product of a set of committees formed in the fall of 2007 The committee chairs and participants are all members of the AAI s Advisory Board The Report consists of ten chapters and an introduction to competition policy and the philosophy behind the Report The first set of chapters examines substantive areas of antitrust law and economics including cartel enforcement monopolization merger policy and a relative newcomer to antitrust discourse buyer power The

following chapters then offer prescriptions for building the institutions of public enforcement and restoring the legitimacy of private enforcement Finally the report concludes with four chapters devoted to several of the key economic sectors in which competition policy issues are currently important media food health and energy Together these sectors account for more than one third of the national economy
