**The Globalization of God** Dara Molloy, 2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism

**Political Spirituality in the Face of Climate Collapse** James W.

Perkinson,2024-07-08 This book takes its motive force from our contemporary climate crisis It seeks to reorient human and especially Christian understanding towards a more ecologically focused indigenously informed way of living James W Perkinson argues that our current eco climatic and socio political emergency is the culmination of a 5 000 year history of supremacist settlement in which city states first emergent in Mesopotamia and Egypt not only begin coercively organizing labor into surplus production and ecosystems into inordinate and destructive yields of goods but in the process also simultaneously deform the Spirit World haloing of natural phenomenon into outsized service of imperial reach Perkinson recognizes globalized humanity as an emerging monstrosity destroying both human culture and the world How we re envision and revalue at our critical juncture our inescapable interdependence with the more than human world as peer and teacher and even elder is the central theme that throbs below the surface of the very disparate topics commanding attention in each chapter
