## **Pickets Parents And Power The Story Behind The New York City:**

**Inside Ocean Hill**□**Brownsville** Charles S. Isaacs, 2014-05-09 The story of an Ocean Hill Brownsville teacher who crossed picket lines during the racially charged New York City teachers strike of 1968 In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill Brownsville It triggered what remains the longest teachers strike in US history That clash between the city's communities of color and the white predominantly Jewish teachers union paralyzed the nation's largest school system undermined the city's economy and heightened racial tensions ultimately transforming the national conversation about race relations At age twenty two when the strike was imminent Charles S Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill Brownsville Despite his Jewish background and pro union leanings Isaacs crossed picket lines manned by teachers who looked like him and took the side of parents and children who did not He now tells the story of this conflict not only from inside the experimental community controlled Ocean Hill Brownsville district its focal point but from within ground zero itself Junior High School 271 which became the nation's most famous or infamous public school Isaacs brings to life the innovative teaching practices that community control made possible and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents teachers and community activists Inside Ocean Hill Brownsville is one of the finest accounts of this turbulent time in America's educational history As a firsthand analysis of a teacher embroiled in the Ocean Hill Brownsville community fight for educational justice it has no peer From its vantage point forty five years after the conflict we finally have a corrective to a plethora of secondhand analyses that have been written over the years It is a candid picture that I recommend highly Maurice R Berube coeditor of *Confrontation at Ocean Hill Brownsville* Inside Ocean Hill Brownsville makes a vital contribution to a much needed reinterpretation of the epochal struggles over community control of the New York City public schools in the 1960s and the divisive UFT fall 1968 strikes in opposition to that community based movement Writing from the firsthand perspective of a young Jewish math teacher at JHS 271 Isaacs brings this important story vividly to life with insight candor and humor He evokes the attitudes and actions of a rich array of ordinary teachers administrators students and parents who fought to defend the community control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press A must read for anyone interested in creating successful public schools this book helps us remember what democratic public education might look like Stephen Brier The Graduate Center City University of New York Charles Isaacs's *Inside Ocean Hill Brownsville* is a firsthand account of the dramatic events of New York City's greatest school crisis Isaacs debunks many of the popular myths of black militants waging assaults on teachers Instead he demonstrates that the episode in Ocean Hill Brownsville was a case of black and Latino parents with the support of a number of teachers at JHS 271 struggling for the education of their children and for a more democratically run educational system These parents faced one of the most powerful unions in the city and a

bureaucratic board of education that wanted to protect the status quo There have been many books written on the 1968 teachers strike but Isaacs's well-written detailed account is by far the best Clarence Taylor author of *Knocking at Our Own Door* Milton A. Galamison and the Struggle to Integrate New York City Schools *The Strike That Changed New York* Jerald E. Podair, 2003-01-01 This admirably balanced book will most likely stand as the definitive account of the Ocean Hill Brownsville crisis for some time engrossing New York History Winner of the Allan Nevins Prize awarded by the Society of American Historians On May 9 1968 junior high school teacher Fred Nauman received a letter that would change the history of New York City It informed him that he had been fired from his job Eighteen other educators in the Ocean Hill Brownsville area of Brooklyn received similar letters that day The dismissed educators were white The local school board that fired them was predominantly African American The crisis that the firings provoked became the most racially divisive moment in the city in more than a century sparking three teachers strikes and increasingly angry confrontations between black and white New Yorkers at bargaining tables on picket lines and in the streets This superb book revisits the Ocean Hill Brownsville crisis a watershed in modern New York City race relations Jerald E. Podair connects the conflict with the sociocultural history of the city and explores its legacy The book is a powerful sobering tale of racial misunderstanding and fear and a New York story with national implications Deftly weaves a complicated story about class and race labor and civil rights There are no faultless heroes or thoroughly evil villains here only human beings struggling to make sense of their world and achieve justice as they understand it Choice Compelling Washington Monthly *The Battle Nearer to Home* Christopher Bonastia, 2022-07-05 Despite its image as an epicenter of progressive social policy New York City continues to have one of the nation's most segregated school systems Tracing the quest for integration in education from the mid 1950s to the present *The Battle Nearer to Home* follows the tireless efforts by educational activists to dismantle the deep racial and socioeconomic inequalities that segregation reinforces The fight for integration has shifted significantly over time not least in terms of the way integration is conceived from transfers of students and redrawing school attendance zones to more recent demands of community control of segregated schools In all cases the Board eventually pulled the plug in the face of resistance from more powerful stakeholders and starting in the 1970s integration receded as a possible solution to educational inequality In excavating the history of New York City school integration politics in the halls of power and on the ground Christopher Bonastia unearths the enduring white resistance to integration and the severe costs paid by Black and Latino students This last decade has seen activists renew the fight for integration but the war is still far from won **Place Matters** Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda **The Movement for Community Control of New York City's Schools, 1966-1970** Derek Edgell, 1998 **The Evolution of Educational Theory in the United States** Dickson A. Mungazi, 1999-01-30 There is no better way to understand a society's assessment of its own success or

failure than an examination of its theories of education because any attempt to improve national performance will be reflected in educational policy This study is a comprehensive account of the evolution of American educational theory from the colonial period to the present It includes a broad discussion of the foundations upon which early Americans built their educational policy as well as influential factors unique to the American experience From the Revolution to nineteenth century reform efforts to the turbulent twentieth century educational theory has been adapted to suit the needs of an ever changing multicultural society Throughout U S history key objectives have affected the character of education particularly curriculum One main thrust for reform has been the belief that equality in education serves the national interest Examination of the historical attitudes toward the education of African Americans provides a valuable insight into this process Today America is experiencing significant difficulties in making its educational system succeed and the negative social effects of this deterioration are already apparent The future success of educational theory lies in international cooperative efforts

**The Journey to the Promised Land** Dickson A. Mungazi, 2001 A study of African American development since the Civil War as measured by progress in four critical areas of national life economic political educational and social It includes discussion of important watershed events and key individuals who helped to redefine the nation s history City Unions Mark H. Maier, 1987 In City Unions the first comprehensive history of New York City s municipal unions Mark Maier traces the rise of collective bargaining in New York City from 1896 to the present Maier argues that despite public images of strength many New York City unions were in fact managers of discontent taking on traditional management roles by preventing strikes and enforcing workplace rules *Rethinking the Urban Agenda* John H. Mollenkopf, Ken Emerson, 2001 This volume takes up the challenge provided by a changing of the guard in New York City government the election of a new mayor and City Council to outline a new conceptual and political road map for New York City s future and in many respects for the future of urban America **Library Journal**, 1971 The Publishers Weekly, 1971-04 Contemporary Authors, New Revision Series CONTEMPORARY., 1981 *The Labour Gazette* Canada. Department of Labour, 1972 *Choice* Richard K. Gardner, Phyllis Grumm, 1976 **The Study of Politics and Education**, 1980 **A Chance to Learn** Meyer Weinberg, 1995 Michigan Law Review, 1976 **The National Union Catalogs, 1963-**, 1964 Where He Stands Dickson A.
